NOTES ON NEWS OF THE DAY.

THE Boston *Globe* has made a canvass of the state of Massachusetts, and claims to have discovered that the state will cast a majority of 3,500 against prohibition. The anti-prohibition majority in Boston is estimated at 10,000.

THE election of a Senator and Representative in Foster, R. I., yesterday resulted in favor of the Republicans, and raised their forces in the Legislature to a tie on joint ballot. There are fourteen more postponed elections to take place.

PRESIDENT HARRISON is reported to be badly worn out by the tremendous strain of the past five weeks, and contemplates a short vacation outside of Washington. A trip to Fort Monroe is suggested ,but no definite arrangements have been made.

WILLIAM M. IVINS has resigned the office of Chamberlain of New York and gone to Brazil. His accounts are all straight. The salary of the office is $25,000 a year, but Ivins gave it up in the hope of recovering his health. It is a big prize that some Tammany Democrat is likely to get.

MAGGIE MITCHELL, the actresss, has obtained a divorce from Henry T. Paddock, and is free to marry again. Maggie supported Paddock upon her earnings, and while she pursued her profession he "passed his days in riot most uncouth." She has got rid of an incumbrance,

THE New York *Sun* says of Joel B. Erhardt, the new Collector: "There is no bitter Republican, none higher toned, none more capable in affairs, none more deserving of promotion at the hands of his party." And it also says that "Cornelius Van Cott will make a tip top Postmaster. There's no Mugwump in him." The *Sun* knows both men.

ANOTHER great river in Africa, called the Zomani, has been discovered and explored for the distance of 503 miles from its confluence with the Congo. It forms a direct and open route to Lake Tanganyika in the heart of the Ethiopian region, and is navigable with a good current all the way. Thanks to Livingstone and Stanley, the mysteries of the Dark Continent are coming rapidly into the light.

THE Illinois Legislature is considering the establishment of a binding twine plant in the state prison at Joliet. The binding twine trust has become such a monopoly that the Illinois farmers will be glad if the convicts can be employed to break it up. If the experiment succeeds, other big trusts may be leveled at in the same way—the whisky and Standard Oil trusts for instance.

THE wine harvest of France amounted last year to 797,707,000 gallons, an increase over 1887 of 151,874,000 gallons. This good result is attributed to the introduction of American vines, upon which French vines were grafted. Most of these vines came into full bearing last year, and their success has created a demand for American vines much beyond the present ability to supply. The phylloxera does not attack the American vines.

HON. ELLIS H. ROBERTS of the Utica *Herald* decided yesterday to accept the Assistant Treasurership at New York. He expects to prepare his bond and be ready to enter upon his duties by the 15th inst. All the intervening time will be required for counting the money in the vaults. Though ex-Judge McCue is dead, his bondsmen are held responsible till the count is finished. The office is in charge of United States Treasurer Hyatt.

ED. MURPHY'S Troy gang of Hill Democrats went over to Cohoes yesterday to wrest the control of the Democratic primaries from the Herrick men. After fatally injuring two men and badly hurting four more they won a partial victory. The story is told in a *Tribune* dispatch which we print elsewhere. Cohoes is only five miles from Albany, and it is surprising that Commander-in-Chief Hill did not order a detachment of state troops to put down the riot.

THE President issued a proclamation yesterday afternoon, recommending that an hour beginning at 9 A. M., be set apart on Tuesday, the 30th inst., for public worship, that the people of the entire country may "implore the favor of God that the blessings of liberty, prosperity and peace may abide with us as a people, and that his hand may lead us in the paths of righteousness and good deeds." The day had already been declared a general holiday by Congress, in honor of George Washington's inauguration as the first President.

MISS ROSE MORROW was nominated for School Trustee in Belvidere, N. J. The local politicians were disgusted, and the clerk of the school board tried to break up the election by staying away from the polls. This did not daunt the plucky woman, who promptly called the meeting to order and proceeded with the election. Her tact and courage won the the admiration of the voters, and she was elected trustee almost without opposition. The absence of the clerk made it necessary to fill that office also, and she was elected to it unanimously. Miss Morrow has the elements of the successful politician.

BELLE MAJOR took poison and died at St. Johnsbury, Vt., last Wednesday night. Several years ago Miss Major became engaged to George Hidden, but he suddenly broke the contract and married another girl. Two years ago this wife died, when Hidden renewed his attentions to Miss Major and a second engagement resulted. When all the arrangements for the marriage were completed and trousseau and bridal veil bought, he broke off the engagement as suddenly as before. Then the deserted girl went to bed, swallowed a dose of poison, and was found dead the next morning. A letter marked "not to be opened until I am dead," explained the cause of the act. If Hidden were living in some wild Western state he would find it prudent to remain hidden. He is one of the scoundrels for whose neck Judge Lynch has a strong affinity.

PLOT TO SHOOT PRINCE OF WALES.

What an Anonymous Letter to Mayor of Leicester Contained.

By Cable to The Freeman.

LONDON, April 6.—The Mayor of Leicester received an anonymous letter warning him that a plot had been arranged to shoot the Prince of Wales when he attended the race meeting there, to-day. Though the authorities placed but little credence in the statement of the writer of the letter, they took every precaution to ensure the safety of his Royal Highness. However, nothing whatever of an untoward nature has taken place at the races.

POSTAL CONVENTIONS SUCCESSFUL.

The Post-Office Department May Continue Making Them in Future.

By Telegraph to The Freeman.

NEW-YORK, April 6.—A Washington dispatch to the *Post* says it will be the policy of the Post-Office Department to continue the plan of making postal conventions with the countries of the American continent. The success of these conventions has been quite as great as was expected. The quarterly returns already received, show that during the present calendar year the United States will send to Mexico in packages, through the parcel post, merchandise of the value of $2,000,000. This is one-quarter of the value of the merchandise sent from the United States to Mexico during the last fiscal year, excluding within the term merchandise what may be called the merchandise of the stores. The delay on the border, which was caused by the inexperience of the custom's officials when the system was first established, no longer exists. The Mexican Government is very much pleased with the result of the convention. Several other conventions will probably be concluded in the next 30 days.

THE SITUATION GROWING SERIOUS.

Riot Caused by the Street Car Strike in Rochester To-Day.

By Telegraph to The Freeman.

ROCHESTER, N. Y., April 6.—The street car strike situation is growing rather serious, a small riot having occurred on East-Main-street, at noon, to-day. A large crowd of men, most of them factory hands, who were taking their nooning, gathered at the corner of St. Paul and Main-streets and indulged in disorderly actions. Mud and stones were thrown and a number of car windows were broken. About 1 o'clock some one hit a "scab" driver on the right ear with a brick, cutting his head and causing him to lose his composure. He drew a revolver, fired into the roadway directly beneath his feet, jumped from his car and ran, pursued by about 200 men and boys. He escaped from them. The police finally dispersed the mob after arresting about 25 men. William Toner, a New-York man, who came here to take a car, was arrested this morning while flourishing a revolver in the Central depot.

SUIT MAY BE INSTITUTED.

By Telegraph to The Freeman.

WASHINGTON, April 6.—The Secretary of the Interior has requested the Attorney General to cause suit to be instituted to recover title to the lands known as the Des Moines River lands, in Iowa, provided the Attorney General, after examination, is of the opinion that such suit could be maintained and that such action would be to the interests of the Government.

THEY EXPECT RELIEF FROM CONGRESS.

Seventeen of the Iowa River Land Settlers Were Arrested Yesterday.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 6.—Sheriff Adams and a deputy yesterday arrested 17 River land settlers charged with conspiracy. The farmers, who had defied the United States officials, peaceably accompaneid the officers, whom they regarded as friends. They were arraigned in a Justice's Court, and waving examination were each placed under $300 bonds for appearance at the May term of Court. The settlers announce their intention to secure a postponement of the trial and continue their policy, until Congress takes definite action. They hope to obtain certain relief from the next Congress and thus evade fine and imprisonment. United States Marshals who have been forced to suspend operations, will not resume evictions until they can do so with largely increased forces. The land-owners announce that evictions will be made if it takes the State Militia.

SOME RECENT DISASTROUS FIRES.

Disaster Caused by a Locomotive Spark in Somerset, Ky., Last Night.

By Telegraph to The Freeman.

SOMERSET, Ky., April 6.—The depot, dispatcher's office, water tank, etc., of the Cincinnati Southern Railroad were burned last night. The fire crossed the street and destroyed J. F. Barker's store, Rousseau's billiard hall, Thornton & Keiser's restaurant, Mrs. McCabe's hotel, Mrs. O'Bannon's hotel, Mrs. O'Connor's hotel and a number of other buildings. About 200 railroad men are driven from their boarding houses, and the Railroad Company has given them cabooses for shelter. Loss $100,000. It is supposed the fire caught from a locomotive spark.

HENRY J. CASSIDY'S CONFESSION.

Implicates His Father as One who Plotted Incendiary Fires.

By Telegraph to The Freeman.

NEW-YORK, April 1.—Henry J. Cassidy, the father of one of the fire-bugs, who were arrested, last night, and formerly engineer of the Catholic Protectory, was arrested, this morning, charged with having incited the acts of incendiarism and also of having taken an active part in them. Young Cassidy made a confession, which implicated his father as the one who plotted the fires. All of the accused will be sent to Westchester County for trial.

By Telegraph to The Freeman.

WASHINGTON, D. C., April 6.—There were not many visitors at the White House to-day. Almost all the Senators have returned home, and the Upper House of Congress was represented alone by Senator Higgins, of Delaware. Among the other callers were ex-Governor Noyes, of Ohio; Professor Langley, of the Smithsonian Institute; General John A. Bingham, Judge Farman, of New-York; Commissioner Mason, Representatives Kinsey, Peters, Owen, Weber, Morey, Caldwell, Farquhar and Van Dever, the latter being accompanied by ex-Congressman Markham, of California, and Henry Olmstead, of New-York.

THE ARMS COURT-MARTIAL.

Acting upon the recommendation of the Secretary of War, the President will order a court-martial for the trial of Major George A. Arms, retired, upon charges of conduct unbecoming an officer and gentleman.

VICTIM OF THE WEATHER.

James I. Christie, Acting Assistant Doorkeeper of the Senate, died this morning. His death adds another name to the long list of victims of the Inauguration weather, for his friends say that from the cold contracted during the open-air ceremonies of that day he never recovered. He was in attendance upon the Senate when it adjourned *sine die* last Tuesday, although not feeling well, and took to his bed on the following day, suffering from congestion of the lungs. He served in the Senate in various capacities for 28 years. He was first appointed as a page. The position he held when he died was created for him in 1872 on motion of Senator Conkling.

THE APPOINTMENTS MADE TO-DAY

His Physician Thus Far Has Not Been Able to Diagnosis the Disease.

By Telegraph to The Freeman.

INDIANAPOLIS, April 6.—Ex-Governor Porter, recently appointed Minister to Italy, is ill at his home in this City, and his physician will not permit any one except members of his family to see him. Three days ago he took a long walk, and when he returned his feet were so swollen that he could hardly remove his shoes. The next morning the skin began to peel off, and great and continuous pain followed. Dr. Jamieson was called, but so far he has not been able to make a satisfactory diagnosis of the disease.

IDA LEWIS SAVES ANOTHER LIFE

Put Out in a Boat and Rescued Her Aged Uncle from Drowning.

By Telegraph to The Freeman.

NEWPORT, R. I., April 6.—Mrs. Wilson, widely known by her maiden name, Ida Lewis, added another, yesterday, to a long list of lives saved by her in Newport harbor. Her uncle, Henry Lewis, aged 70, while returning from fishing in a small skiff, fell overboard near Lime Rock Light-House, of which the lady is keeper. She saw the accident and put out in her boat and rescued her uncle in an exhausted condition.

By Telegraph to The Freeman.

NEW-YORK, April 6.—A reporter called on Joel B. Erhardt, last night, and asked whether he would accept the Collectorship of the Port, to which he had been appointed. Mr. Erhardt said: "I may as well own up at once, I suppose I shall accept the honor."

"Can you say when you will take up the reins of office?"

"Not exactly. There is a little matter of a bond to be thought of, and I presume there is no great hurry. Mr. Magone is still in office, and needs no assistance, but I presume I shall call on him within a day or two and get the hang of the meeting house."

"And what can we say about the policy of the new Collector?"

"Only this, that the office will be run for the best interests of the country, according to the best of my ability."

"With an eye single to the Administration?" queried the reporter.

"With both eyes on the Administration," answered Mr. Erhardt, "not forgetting, however, that the eyes of the Administration will doubtless be on me at the same time."

"To whom do you think you owe your appointment, Mr. Erhardt?" he was asked.

"I have an idea that it is to President Harrison," said he with a merry twinkle in his eye.

The rates have ranged from three cents early in the winter to two and a half cents yesterday on corn to Buffalo. In contrast with previous winters comparatively few boats have been loaded until along toward the opening of navigation.

NOW! IN THE SPRING OF THE YEAR.

During winter, nature wisely arranges that we should live on foods containing much fat, or, as they are known, hydrocarbons, for the purpose of supplying heat to the body; the chemicle operation necessary to transform fat into heat is the exclusive work of the liver, and so during the time stated it is constantly congested.

With the approach of warm weather our diet changes to muscle-producing food, and the work of the liver is much lessened. In the majority of cases, however, it is unable to completely throw off the excess of bile, but remains congested, causing that lazy, tired feeling which many have in the Spring months, when the weather becomes warm.

This is evidence of an unhealthy condition, and though people appreciate the necessity of an alterative at this period, the common idea is to take drastic pills and produce a cathartic effect, only to make matters worse. The liver must be unloaded, and its proper action restored before hot weather, if you wish to preserve health, and if this distinct call of nature is unheeded serious results will occur.

The blood will become loaded with bile and lithic acid, and as every drop of vital fluid passes through the kidneys to be purified, they soon break down and are unable to carry out the deadly poison. Warner's Safe Cure and Warner's Safe Pills have not only a specific action on the kidneys, but on the liver also.

They thin the thickened bile so that it will pass out through its ducts, enable the glands to unload themselves, act as a solvent on all biliary acids and in a word, fit these great organs for the season's work, preventing blood poisoning, inflammation, abscess, and all affections to which they are so liable.

As you value the blessings of health, do not allow the summer to approach without giving your system "a geneal house-cleaning," in the manner we have indicated.

"To be forewarned is to be forearmed."

NOTES ON NEWS OF THE DAY.

THE Boston *Globe* has made a canvass of the state of Massachusetts, and claims to have discovered that the state will cast a majority of 3,500 against prohibition. The anti-prohibition majority in Boston is estimated at 10,000.

THE election of a Senator and Representative in Foster, R. I., yesterday resulted in favor of the Republicans, and raised their forces in the Legislature to a tie on joint ballot. There are fourteen more postponed elections to take place.

PRESIDENT HARRISON is reported to be badly worn out by the tremendous strain of the past five weeks, and contemplates a short vacation outside of Washington. A trip to Fort Monroe is suggested ,but no definite arrangements have been made.

WILLIAM M. IVINS has resigned the office of Chamberlain of New York and gone to Brazil. His accounts are all straight. The salary of the office is $25,000 a year, but Ivins gave it up in the hope of recovering his health. It is a big prize that some Tammany Democrat is likely to get.

MAGGIE MITCHELL, the actress, has obtained a divorce from Henry T. Paddock, and is free to marry again. Maggie supported Paddock upon her earnings, and while she pursued her profession he "passed his days in riot most uncouth." She has got rid of an incumbrance.

THE New York *Sun* says of Joel B. Erhardt, the new Collector: "There is no fitter Republican, none higher toned, none more capable in affairs, none more deserving of promotion at the hands of his party." And it also says that "Cornelius Van Cott will make a tip top Postmaster. There's no Mugwump in him." The *Sun* knows both men.

ANOTHER great river in Africa, called the Zomani, has been discovered and explored for the distance of 503 miles from its confluence with the Congo. It forms a direct and open route to Lake Tanganyika in the heart of the Ethiopian region, and is navigable with a good current all the way. Thanks to Livingstone and Stanley, the mysteries of the Dark Continent are coming rapidly into the light.

THE Illinois Legislature is considering the establishment of a binding twine plant in the state prison at Joliet. The binding twine trust has become such a monopoly that the Illinois farmers will be glad if the convicts can be employed to break it up. If the experiment succeeds, other big trusts may be leveled at in the same way—the whisky and Standard Oil trusts for instance.

THE wine harvest of France amounted last year to 797,707,000 gallons, an increase over 1887 of 151,874,000 gallons. This good result is attributed to the introduction of American vines, upon which French vines were grafted. Most of these vines came into full bearing last year, and their success has created a demand for American vines much beyond the present ability to supply. The phylloxera does not attack the American vines.

HON. ELLIS H. ROBERTS of the Utica *Herald* decided yesterday to accept the Assistant Treasurership at New York. He expects to prepare his bond and be ready to enter upon his duties by the 15th inst. All the intervening time will be required for counting the money in the vaults. Though ex-Judge McCue is dead, his bondsmen are held responsible till the count is finished. The office is in charge of United States Treasurer Hyatt.

ED. MURPHY'S Troy gang of Hill Democrats went over to Cohoes yesterday to wrest the control of the Democratic primaries from the Herrick men. After fatally injuring two men and badly hurting four more they won a partial victory. The story is told in a *Tribune* dispatch which we print elsewhere. Cohoes is only five miles from Albany, and it is surprising that Commander-in-Chief Hill did not order a detachment of state troops to put down the riot.

THE President issued a proclamation yesterday afternoon, recommending that an hour beginning at 9 A. M., be set apart on Tuesday, the 30th inst., for public worship, that the people of the entire country may "implore the favor of God that the blessings of liberty, prosperity and peace may abide with us as a people, and that his hand may lead us in the paths of righteousness and good deeds." The day had already been declared a general holiday by Congress, in honor of George Washington's inauguration as the first President.

MISS ROSE MORROW was nominated for School Trustee in Belvidere, N. J. The local politicians were disgusted, and the clerk of the school board tried to break up the election by staying away from the polls. This did not daunt the plucky woman, who promptly called the meeting to order and proceeded with the election. Her tact and courage won the the admiration of the voters, and she was elected trustee almost without opposition. The absence of the clerk made it necessary to fill that office also, and she was elected to it unanimously. Miss Morrow has the elements of the successful politician.

BELLE MAJOR took poison and died at St. Johnsbury, Vt., last Wednesday night. Several years ago Miss Major became engaged to George Hidden, but he suddenly broke the contract and married another girl. Two years ago this wife died, when Hidden renewed his attentions to Miss Major and a second engagement resulted. When all the arrangements for the marriage were completed and trousseau and bridal veil bought, he broke off the engagement as suddenly as before. Then the deserted girl went to bed, swallowed a dose of poison, and was found dead the next morning. A letter marked "not to be opened until I am dead," explained the cause of the act. If Hidden were living in some wild Western state he would find it prudent to remain hidden. He is one of the scoundrels for whose neck Judge Lynch has a strong affinity.

PLOT TO SHOOT PRINCE OF WALES.

What an Anonymous Letter to Mayor of Leicester Contained.

By Cable to The Freeman.

LONDON, April 6.—The Mayor of Leicester received an anonymous letter warning him that a plot had been arranged to shoot the Prince of Wales when he attended the race meeting there, to-day. Though the authorities placed but little credence in the statement of the writer of the letter, they took every precaution to ensure the safety of his Royal Highness. However, nothing whatever of an untoward nature has taken place at the races.

POSTAL CONVENTIONS SUCCESSFUL.

The Post-Office Department May Continue Making Them in Future.

By Telegraph to The Freeman.

NEW-YORK, April 6.—A Washington dispatch to the *Post* says it will be the policy of the Post-Office Department to continue the plan of making postal conventions with the countries of the American continent. The success of these conventions has been quite as great as was expected. The quarterly returns already received, show that during the present calendar year the United States will send to Mexico in packages, through the parcel post, merchandise of the value of $2,000,000. This is one-quarter of the value of the merchandise sent from the United States to Mexico during the last fiscal year, excluding within the term merchandise what may be called the merchandise of the stores. The delay on the border, which was caused by the inexperience of the custom's officials when the system was first established, no longer exists. The Mexican Government is very much pleased with the result of the convention. Several other conventions will probably be concluded in the next 30 days.

THE SITUATION GROWING SERIOUS.

Riot Caused by the Street Car Strike in Rochester To-Day.

By Telegraph to The Freeman.

ROCHESTER, N. Y., April 6.—The street car strike situation is growing rather serious, a small riot having occurred on East-Main-street, at noon, to-day. A large crowd of men, most of them factory hands, who were taking their nooning, gathered at the corner of St. Paul and Main-streets and indulged in disorderly actions. Mud and stones were thrown and a number of car windows were broken. About 1 o'clock some one hit a "scab" driver on the right ear with a brick, cutting his head and causing him to lose his composure. He drew a revolver, fired into the roadway directly beneath his feet, jumped from his car and ran, pursued by about 200 men and boys. He escaped from them. The police finally dispersed the mob after arresting about 25 men. William Toner, a New-York man, who came here to take a car, was arrested this morning while flourishing a revolver in the Central depot.

SUIT MAY BE INSTITUTED.

By Telegraph to The Freeman.

WASHINGTON, April 6.—The Secretary of the Interior has requested the Attorney General to cause suit to be instituted to recover title to the lands known as the Des Moines River lands, in Iowa, provided the Attorney General, after examination, is of the opinion that such suit could be maintained and that such action would be to the interests of the Government.

THEY EXPECT RELIEF FROM CONGRESS.

Seventeen of the Iowa River Land Settlers Were Arrested Yesterday.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 6.—Sheriff Adams and a deputy yesterday arrested 17 River land settlers charged with conspiracy. The farmers, who had defied the United States officials, peaceably accompaneid the officers, whom they regarded as friends. They were arraigned in a Justice's Court, and waving examination were each placed under $300 bonds for appearance at the May term of Court. The settlers announce their intention to secure a postponement of the trial and continue their policy, until Congress takes definite action. They hope to obtain certain relief from the next Congress and thus evade fine and imprisonment. United States Marshals who have been forced to suspend operations, will not resume evictions until they can do so with largely increased forces. The land-owners announce that evictions will be made if it takes the State Militia.

SOME RECENT DISASTROUS FIRES.

Disaster Caused by a Locomotive Spark in Somerset, Ky., Last Night.

By Telegraph to The Freeman.

SOMERSET, Ky., April 6.—The depot, dispatcher's office, water tank, etc., of the Cincinnati Southern Railroad were burned last night. The fire crossed the street and destroyed J. F. Barker's store, Rousseau's billiard hall, Thornton & Keiser's restaurant, Mrs. McCabe's hotel, Mrs. O'Bannon's hotel, Mrs. O'Connor's hotel and a number of other buildings. About 200 railroad men are driven from their boarding houses, and the Railroad Company has given them cabooses for shelter. Loss $100,000. It is supposed the fire caught from a locomotive spark.

HENRY J. CASSIDY'S CONFESSION.

Implicates His Father as One who Plotted Incendiary Fires.

By Telegraph to The Freeman.

NEW-YORK, April 1.—Henry J. Cassidy, the father of one of the fire-bugs, who were arrested, last night, and formerly engineer of the Catholic Protectory, was arrested, this morning, charged with having incited the acts of incendiarism and also of having taken an active part in them. Young Cassidy made a confession, which implicated his father as the one who plotted the fires. All of the accused will be sent to Westchester County for trial.

Honoring Matthews' Memory.

By Telegraph to The Freeman.

AT THE NATION'S CAPITAL TO-DAY.

Not Many Callers at White House; Cruise in Chesapeake Bay.

By Telegraph to The Freeman.

WASHINGTON, D. C., April 6.—There were not many visitors at the White House to-day. Almost all the Senators have returned home, and the Upper House of Congress was represented alone by Senator Higgins, of Delaware. Among the other callers were ex-Governor Noyes, of Ohio; Professor Langley, of the Smithsonian Institute; General John A. Bingham, Judge Farman, of New-York; Commissioner Mason, Representatives Kinsey, Peters, Owen, Weber, Morey, Caldwell, Farquhar and Van Dever, the latter being accompanied by ex-Congressman Markham, of California, and Henry Olmstead, of New-York.

It is said the President will go to Baltimore Monday morning to take a vessel for a cruise in Chesapeake Bay.

THE ARMS COURT-MARTIAL.

Acting upon the recommendation of the Secretary of War, the President will order a court-martial for the trial of Major George A. Arms, retired, upon charges of conduct unbecoming an officer and gentleman.

VICTIM OF THE WEATHER.

James I. Christie, Acting Assistant Doorkeeper of the Senate, died this morning. His death adds another name to the long list of victims of the Inauguration weather, for his friends say that from the cold contracted during the open-air ceremonies of that day he never recovered. He was in attendance upon the Senate when it adjourned *sine die* last Tuesday, although not feeling well, and took to his bed on the following day, suffering from congestion of the lungs. He served in the Senate in various capacities for 28 years. He was first appointed as a page. The position he held when he died was created for him in 1872 on motion of Senator Conkling.

THE APPOINTMENTS MADE TO-DAY

EX-GOV. PORTER, OF INDIANA, ILL.

His Physician Thus Far Has Not Been Able to Diagnosis the Disease.

By Telegraph to The Freeman.

INDIANAPOLIS, April 6.—Ex-Governor Porter, recently appointed Minister to Italy, is ill at his home in this City, and his physician will not permit any one except members of his family to see him. Three days ago he took a long walk, and when he returned his feet were so swollen that he could hardly remove his shoes. The next morning the skin began to peel off, and great and continuous pain followed. Dr. Jamieson was called, but so far he has not been able to make a satisfactory diagnosis of the disease.

IDA LEWIS SAVES ANOTHER LIFE

Put Out in a Boat and Rescued Her Aged Uncle from Drowning.

By Telegraph to The Freeman.

NEWPORT, R. I., April 6.—Mrs. Wilson, widely known by her maiden name, Ida Lewis, added another, yesterday, to a long list of lives saved by her in Newport harbor. Her uncle, Henry Lewis, aged 70, while returning from fishing in a small skiff, fell overboard near Lime Rock Light-House, of which the lady is keeper. She saw the accident and put out in her boat and rescued her uncle in an exhausted condition.

By Telegraph to The Freeman.

NEW-YORK, April 6.—A reporter called on Joel B. Erhardt, last night, and asked whether he would accept the Collectorship of the Port, to which he had been appointed. Mr. Erhardt said: "I may as well own up at once, I suppose I shall accept the honor."

"Can you say when you will take up the reins of office?"

"Not exactly. There is a little matter of a bond to be thought of, and I presume there is no great hurry. Mr. Magone is still in office, and needs no assistance, but I presume I shall call on him within a day or two and get the hang of the meeting house."

"And what can we say about the policy of the new Collector?"

"Only this, that the office will be run for the best interests of the country, according to the best of my ability."

"With an eye single to the Administration?" queried the reporter.

"With both eyes on the Administration," answered Mr. Erhardt, "not forgetting, however, that the eyes of the Administration will doubtless be on me at the same time."

"To whom do you think you owe your appointment, Mr. Erhardt?" he was asked.

"I have an idea that it is to President Harrison," said he with a merry twinkle in his eye.

The rates have ranged from three cents early in the winter to two and a half cents yesterday on corn to Buffalo. In contrast with previous winters comparatively few boats have been loaded until along toward the opening of navigation.

NOW! IN THE SPRING OF THE YEAR.

During winter, nature wisely arranges that we should live on foods containing much fat, or, as they are known, hydrocarbons, for the purpose of supplying heat to the body; the chemicle operation necessary to transform fat into heat is the exclusive work of the liver, and so during the time stated it is constantly congested.

With the approach of warm weather our diet changes to muscle-producing food, and the work of the liver is much lessened. In the majority of cases, however, it is unable to completely throw off the excess of bile, but remains congested, causing that lazy, tired feeling which many have in the Spring months, when the weather becomes warm.

This is evidence of an unhealthy condition, and though people appreciate the necessity of an alterative at this period, the common idea is to take drastic pills and produce a cathartic effect, only to make matters worse. The liver must be unloaded, and its proper action restored before hot weather, if you wish to preserve health, and if this distinct call of nature is unheeded serious results will occur.

The blood will become loaded with bile and lithic acid, and as every drop of vital fluid passes through the kidneys to be purified, they soon break down and are unable to carry out the deadly poison. Warner's Safe Cure and Warner's Safe Pills have not only a specific action on the kidneys, but on the liver also.

They thin the thickened bile so that it will pass out through its ducts, enable the glands to unload themselves, act as a solvent on all biliary acids and in a word, fit these great organs for the season's work, preventing blood poisoning, inflammation, abscess, and all affections to which they are so liable.

As you value the bessings of health, do not allow the summer to approach without giving your system "a geneal house-cleaning," in the manner we have indicated.

"To be forewarned is to be forearmed."

DEMOCRAT AND MUGWUMP.

Collector Magone, Democrat, remained in charge of the New York Custom House until President Harrison had time to set his administration in good working order, and then went to Washington and delivered his resignation in person. He actually wanted to be relieved, though his commission had not expired. As a party man, he realized the necessity of harmony between the administration at Washington and the subordinate officials in charge of important trusts. He realized also that the anticipation of early discharge was a temptation to dishonest employes to commit depredations for which he would be held responsible. He had been a Democrat in office, and had used the place for all it was worth as a party machine. But he accepts defeat in a manly fashion and takes himself out of the way at the precise moment when the President is ready to name his successor.

Postmaster Pearson is a Mugwump. He was retained in office at the demand of those reformers who went over to the Democracy in 1884 on a pretense of dissatisfaction with the Republican candidates. This one concession to Mugwump demands kept them faithful to Mr. Cleveland for four years, and when the Republicans nominated a candidate against whom no objection could be raised, they shifted their ground to free trade. Since the election, however, having no further use for Mr. Cleveland, they have discovered a profound admiration for Gen. Harrison. They have intimated that he could have their support without reserve or qualification if Postmaster Pierson was retained. They have encouraged Mr. Pierson to cling to his office in the hope that their pleadings and demands would prevail. He could not believe until yesterday that he was to be superceded. When a *Tribune* reporter called upon him yesterday and informed him of Mr. Van Cott's appointment his utterance was so choked by emotion that he could scarcely speak. "He had received no official notice that his services were no longer required nor any intimation that he was to be removed. No specific arrangements for the future had been made by him. He had been in the Postoffice Department nearly all his life, having entered as a clerk when a young man, and had always done, he said, what according to his judgment was for the best interests of the service. If it was thought that the service would be improved by his retirement he ought not to complain." Mr. Pierson was apparently broken down by the news. He had evidently believed up to the last moment that he was to be retained, though he played the offensive partisan in Democratic behalf in the most flagrant manner at several elections.

There may be a difference of opinion as to whether the conduct of Magone or of Pierson is the more worthy of commendation. Mr. Magone has done something to confirm and strengthen the old Democratic doctrine that "to the victors belong the spoils," by his turning over the office to a Republican. But did not Mr. Pierson practically affirm this doctrine when he deprived a large number of Republican letter carriers of their votes by keeping them employed at points distant from their voting places on election day? Mr. Magone has no further use for his office because he cannot make it of service to his party. Mr. Pierson has so much use of his office for himself that there could be no doubt of his devoted Republicanism during the next four years if he were permitted to retain it. He is succeeded by a man who is first, last and always a Republican. Whether the Democratic way or the Mugwump way is the more worthy of praise, it strikes us that the President's action is indicative of the presence of a Republican administration at Washington.

PRISON LABOR.

Senator Fassett's prison bill contains more practical common sense on the labor question than any other measure that we have seen. After providing for a codification of existing prison laws, it proceeds to the main subject.

First, it gives an opportunity to the prisoner for reform, by sentencing him for an indefinite time between the maximum and minimum limits fixed by law. When the minimum limit is reached he may make application for discharge or release on parole, whereupon he shall be examined by a board established for the purpose. This board can determine whether he shall continue to serve under the sentence, be released upon parole subject to re-imprisonment if the conditions of the parole are not complied with, or be absolutely discharged. In the latter case his reform must be so evident and so thorough as to satisfy the board that the welfare of society will not be jeopardized by his release. The same part of the bill abolishes all cruel methods of punishment and substitutes only solitary confinement on short rations. Measures are also provided for the preservation of the health of the prisoners and for the ascertainment and treatment of insanity.

The portion devoted to the employment of the convicts provides for their classification into three divisions; first, those who are most corrigible and susceptible to reformation; second, the apparently incorrigible but skillful and competent as workers; third, the hardened offenders who are likely to interfere with prison discipline. The first class are to be given employment with the object of fitting them for usefulness and honorable self-support when released, whether profits result from their labors or not. The second class are to be employed upon saleable products, with the object, first, of profit to the state, and second, of fitting them for self-support when released. The third class are to be employed solely for the profit of the state.

The bill prohibits the contract system, adopts the state account system, and permits the piece price system to be substituted when the appropriation for the state account system gives out. The number employed at any one industry shall not exceed 10 per cent of the free laborers engaged in the same occupation in the state. Institutions supported wholly or partly by the state are to receive their supplies from the prisons as far as possible. The prisoners are to receive instruction an hour and a half each day except Sundays. Those serving life sentences, and thus debarred from commutation for good behavior, may be paid wages of from 8 to 12 cents a day in the discretion of the prison officials.

This is a good, practical bill. The only important feature lacking is one providing for the distribution of actual profits, if any are earned, among the families of those prisoners who are deprived of the means of support by their incarceration. This would provide a great stimulus to industry, and would overcome the last objection of labor organizations to giving to prisoners the best and most profitable employment possible.

COLLECTOR AND POSTMASTER.

The two appointments of highest interest to New Yorkers since the Cabinet positions were disposed of were made by President Harrison yesterday. Joel B. Erhardt was appointed Collector of the Port, and Senator Cornelius VanCott Postmaster of New York. These appointments appear to suit everybody. Democrats as well as Republicans express pleasure. Both gentlemen are natives and life-long residents of the city, where they have built up reputations as honorable business men and politicians which commend them to universal confidence.

Mr. Erhardt is about fifty-one years old, and a graduate of the University of Vermont. He abandoned his law studies in 1861 to enter the army. He served through the war, reaching the rank of Captain. He has since held the offices of United States District Attorney, Police Commissioner and United States Marshal. His last public service was as receiver and President of the New York and Northern road. He was the Republican candidate for Mayor of New York last fall, and received 73,037 votes, while Mayor Hewitt received only 71,979. He was defeated by Hugh J. Grant, who received 114,111.

Mr. VanCott is 50 years old. He began the trade of compositor in the American Tract Society's establishment, but left it to learn carriage making. Activity in politics brought him into prominence, and during Mr. Lincoln's administration he was appointed an inspector of customs. This office he resigned to go into the insurance business. He has for several years been a director and Vice-President of the Ætna Fire Insurance Company. He has been an active fireman, and was for several years a member and President of the Board of Fire Commissioners. He is a trustee of the West Side savings bank, President of the Lincoln Club and a member of the Republican state committee. In 1887 he was elected a State Senator from the eighth district by a plurality of 4,803 over the Democratic candidate and a majority over the whole of 1,661.

THE ED. MURPHY GANG.

They Start a Democratic War in Cohoes—Heads Broken and Boxes Smashed.

[Special dispatch to the New York Tribune.]

COHOES, N. Y., April 5.—This town has been in a ferment all day and the result will probably be a murder or two. The cause is the rivalry between David B. Hill's man "Ed" Murphy, Jr., Chairman of the Democratic State Committee, and the friends of D. Cady Herrick, the Cleveland leader, of Albany, who are fighting for political supremacy in Albany county. As in the West Troy primary election, a few weeks ago, Murphy imported a gang of the most ruffianly men that Rensselaer county can produce, to help carry the day. These men are his most abject servants, and will pick a pocket or smash a man's skull at his bidding.

The row was over the election of Democratic candidates for the ward offices, principally Supervisors. Two years ago John Garside was elected Mayor of Cohoes by the Democrats. He wanted to control the delegates from that city to the County Convention last spring to insure his election to the Democratic National Convention at St. Louis. Mayor Garside was defeated and ex-County Clerk John Larkin, a sworn Cleveland man, chosen. This drew more closely the lines between the Hill and Cleveland Democrats in this city, and the contest between these two factions become so bitter, under the lead of these two Democrats, that Garside, through questionable means, obtained control of the police department and turned out all the old members of the police force and made the force strictly a political machine of his own. He used it to-day in such a manner that rioting and blood-shed are the result.

In two of the wards here the Herrick men carried the day without disturbance; but in the Fourth Ward, after balloting for an hour, it became apparent to the Mayor's men that they were beaten by a large majority, and that their only recourse was to capture the polls and run the election to suit themselves. The police, under orders apparently from the Mayor, broke down the doors of the polling place and smashed the ballot-boxes, scattering the ballots on the floor. This led to a general fight between the inspectors of election, who were Larkin men, and the police, and among the people who were massed on the outside. The police brought a second ballot-box with them and tried to run the Mayor's side of the election. Heads were broken and many men were badly injured.

But the most serious affray was in the First Ward. Here the inspectors were Larkin men, and the Mayor's forces demanded a watcher at the polls. This was granted, but he was compelled to enter the polling place by a rear door. This infuriated the police, who had been sent there by the Mayor to run things, and they demanded admission to the office of O'Day's barn, where the election was taking place. The inspectors denied them admission, claiming that they had no right there. The police battered down the doors and gained admission. In the fight Police Sergeant Barrett was struck over the head with an axe. His skull was fractured, and he is likely to die.

While this row was in progress, one of Larkin's men shoved a pistol through a window and threatened to shoot the first man who came in sight. William O'Brien, a former town officer, was so badly pounded that he had to be carried home. The Mayor's men by force of numbers got possession of the polls and carried things their own way.

To-night Cohoes is in a state of wild excitement. Fights and slugging affrays, almost without number, have taken place, and several men have been carried home with serious injuries. The Sheriff of Albany county has sworn in a posse of men and will keep order, if possible, during the election on Monday, when Murphy and his gang are expected to appear in force.

THE CENTENNIAL FUSS.

How it is Viewed in Another State—Some Ridiculous Features.

[From the Philadelphia Times.]

They are having lots of fun in New York over the proposed centennial commemoration of the inauguration of Washington. The committee having the celebration in charge is carefully selected from the most aristocratic society, and while the common people are to be allowed to look on, only persons of clear descent from revolutionary grandfathers are expected to take part in the official ceremonies.

There is, of course, no rule without an exception, and some of the official personages whom it has been necessary to include, as well as some members of the committee itself, are of rather shady genealogy. Still, the Four Hundred have done the best they could, and they are happy in the good fortune that has sent a President of the United States just at this time who had a distinguished grandfather and great-grandfather, and who is therefore amply qualified to occupy the place of General Washington in the procession. He is to be received, just as Washington was, at Elizabethport, escorted to the city in a barge, and otherwise made an exhibition of. He will not, however, wear the Washington costume.

It is remembered that in Washington's time the President was surrounded with a good deal of aristocratic style, and the committee is determined to show no deterioration from the standard of the original Republican court. It has therefore been compelled, in issuing invitations to the inauguration ball, to draw the line at the Legislature. But the Legislature is expected to pay the bills, and the rural members thus had the committee at a disadvantage. No invitations, no appropriation.

So an emissary of the Four Hundred was sent up to Albany to negotiate. He agreed to invite the Legislature to the ball and to give the members a Grand Stand all to themselves from which to view the procession. This was expected to make peace, but when the Legislators found that the ball tickets were for "one gentleman only" and would not admit their wives and daughters, they were up in arms again.

Negotiations were accordingly renewed, but at this point the members of the committee were obdurate. They might, by a stretch, take in the members themselves, ex officio, but as to the wives and daughters of the Metropolitan Aldermen, the doors that open only to good society must be resolutely closed.

It was hoped that the matter had been finally adjusted on this basis, but it appears that even so purely a formal a concession to the commonalty has broken the heart, as it were, of the Grand Panjandrum himself, and the telegraph brings the appalling news that Mr. Ward McAllister, the special guardian of New York society, has resigned his commission as leader of the ball and washed his hands of the whole affair.

It is believed that the 400 will pull themselves together and bravely maintain their position in spite of the defection of their leader, but the situation is critical. The whole scheme of attempting to reproduce the conditions of a hundred years ago is so absurd that it seems unnecessary to discuss which party to the present quarrel is the most ridiculous. But in any case it furnishes plenty of sport for unsympathetic spectators at a distance.

SANFORD'S RADICAL CURE FOR CATARRH.

Relief Instantaneous, Cure Rapid, Radical and Permanent.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure for Catarrh

consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and IMPROVED INHALER, all in one package; price, $1. Ask for SANFORD'S RADICAL CURE. Sold everywhere.

INTERESTED PEOPLE.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50 cents and $1. We certainly would advise a trial. It may save you from consumption.

The famous Hop Plasters not only cure every soreness but prevents a return. No failure possible.

A LUCKY MAN.

Mr. Lyman Crawford, Druggist, of Springfield, Mass., says: For years I was afflicted with kidney disease in its worst form, and I state, with a perfect recollection of all that was done for me, that Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., gave me permanent relief.

FEMALE BEAUTY.

It is a fortunate thing that all men do not have the same taste in female beauty, for otherwise they would all fall in love with the same woman, which would be awkward. Although the preferences of men for different style of form and feature vary greatly, it is undoubtedly a fact that a face indicative of health is pleasing to all alike. A woman may be without regular features, yet, if healthy, she will be beautiful to some one and pleasing to all. A sallow complexion, a dull eye, a system debilitated by unnatural discharges, in short, all the ills attendant upon the irregularities and "weaknesses" peculiar to the sex, can be banished by the use of Dr. Pierce's Favorite Prescription. Ask your druggist.

DEMOCRAT AND MUGWUMP.

Collector Magone, Democrat, remained in charge of the New York Custom House until President Harrison had time to set his administration in good working order, and then went to Washington and delivered his resignation in person. He actually wanted to be relieved, though his commission had not expired. As a party man, he realized the necessity of harmony between the administration at Washington and the subordinate officials in charge of important trusts. He realized also that the anticipation of early discharge was a temptation to dishonest employes to commit depredations for which he would be held responsible. He had been a Democrat in office, and had used the place for all it was worth as a party machine. But he accepts defeat in a manly fashion and takes himself out of the way at the precise moment when the President is ready to name his successor.

Postmaster Pearson is a Mugwump. He was retained in office at the demand of those reformers who went over to the Democracy in 1884 on a pretense of dissatisfaction with the Republican candidates. This one concession to Mugwump demands kept them faithful to Mr. Cleveland for four years, and when the Republicans nominated a candidate against whom no objection could be raised, they shifted their ground to free trade. Since the election, however, having no further use for Mr. Cleveland, they have discovered a profound admiration for Gen. Harrison. They have intimated that he could have their support without reserve or qualification if Postmaster Pierson was retained. They have encouraged Mr. Pierson to cling to his office in the hope that their pleadings and demands would prevail. He could not believe until yesterday that he was to be suspercceded. When a *Tribune* reporter called upon him yesterday and informed him of Mr. Van Cott's appointment his utterance was so choked by emotion that he could scarcely speak. "He had received no official notice that his services were no longer required nor any intimation that he was to be removed. No specific arrangements for the future had been made by him. He had been in the Postoffice Department nearly all his life, having entered as a clerk when a young man, and had always done, he said, what according to his judgment was for the best interests of the service. If it was thought that the service would be improved by his retirement he ought not to complain." Mr. Pierson was apparently broken down by the news. He had evidently believed up to the last moment that he was to be retained, though he played the offensive partisan in Democratic behalf in the most flagrant manner at several elections.

There may be a difference of opinion as to whether the conduct of Magone or of Pierson is the more worthy of commendation. Mr. Magone has done something to confirm and strengthen the old Democratic doctrine that "to the victors belong the spoils," by his turning over the office to a Republican. But did not Mr. Pierson practically affirm this doctrine when he deprived a large number of Republican letter carriers of their votes by keeping them employed at points distant from their voting places on election day? Mr. Magone has no further use for his office because he cannot make it of service to his party. Mr. Pierson has so much use of his office for himself that there could be no doubt of his devoted Republicanism during the next four years if he were permitted to retain it. He is succeeded by a man who is first, last and always a Republican. Whether the Democratic way or the Mugwump way is the more worthy of praise, it strikes us that the President's action is indicative of the presence of a Republican administration at Washington.

PRISON LABOR.

Senator Fassett's prison bill contains more practical common sense on the labor question than any other measure that we have seen. After providing for a codification of existing prison laws, it proceeds to the main subject.

First, it gives an opportunity to the prisoner for reform, by sentencing him for an indefinite time between the maximum and minimum limits fixed by law. When the minimum limit is reached he may make application for discharge or release on parole, whereupon he shall be examined by a board established for the purpose. This board can determine whether he shall continue to serve under the sentence, be released upon parole subject to re-imprisonment if the conditions of the parole are not complied with, or be absolutely discharged. In the latter case his reform must be so evident and so thorough as to satisfy the board that the welfare of society will not be jeoparded by his release. The same part of the bill abolishes all cruel methods of punishment and substitutes only solitary confinement on short rations. Measures are also provided for the preservation of the health of the prisoners and for the ascertainment and treatment of insanity.

The portion devoted to the employment of the convicts provides for their classification into three divisions; first, those who are most corrigible and susceptible to reformation; second, the apparently incorrigible but skillful and competent as workers; third, the hardened offenders who are likely to interfere with prison discipline. The first class are to be given employment with the object of fitting them for usefulness and honorable self-support when released, whether profits result from their labors or not. The second class are to be employed upon saleable products, with the object, first, of profit to the state, and second, of fitting them for self-support when released. The third class are to be employed solely for the profit of the state.

The bill prohibits the contract system, adopts the state account system, and permits the piece price system to be substituted when the appropriation for the state account system gives out. The number employed at any one industry shall not exceed 10 per cent of the free laborers engaged in the same occupation in the state. Institutions supported wholly or partly by the state are to receive their supplies from the prisons as far as possible. The prisoners are to receive instruction an hour and a half each day except Sundays. Those serving life sentences, and thus debarred from commutation for good behavior, may be paid wages of from 8 to 12 cents a day in the discretion of the prison officials.

This is a good, practical bill. The only important feature lacking is one providing for the distribution of actual profits, if any are earned, among the families of those prisoners who are deprived of the means of support by their incarceration. This would provide a great stimulus to industry, and would overcome the last objection of labor organizations to giving to prisoners the best and most profitable employment possible.

COLLECTOR AND POSTMASTER.

The two appointments of highest interest to New Yorkers since the Cabinet positions were disposed of were made by President Harrison yesterday. Joel B. Erhardt was appointed Collector of the Port, and Senator Cornelius VanCott Postmaster of New York. These appointments appear to suit everybody. Democrats as well as Republicans express pleasure. Both gentlemen are natives and life-long residents of the city, where they have built up reputations as honorable business men and politicians which commend them to universal confidence.

Mr. Erhardt is about fifty-one years old, and a graduate of the University of Vermont. He abandoned his law studies in 1861 to enter the army. He served through the war, reaching the rank of Captain. He has since held the offices of United States District Attorney, Police Commissioner and United States Marshal. His last public service was as receiver and President of the New York and Northern road. He was the Republican candidate for Mayor of New York last fall, and received 73,037 votes, while Mayor Hewitt received only 71,979. He was defeated by Hugh J. Grant, who received 114,111.

Mr. VanCott is 50 years old. He began the trade of compositor in the American Tract Society's establishment, but left it to learn carriage making. Activity in politics brought him into prominence, and during Mr. Lincoln's administration he was appointed an inspector of customs. This office he resigned to go into the insurance business. He has for several years been a director and Vice-President of the Ætna Fire Insurance Company. He has been an active fireman, and was for several years a member and President of the Board of Fire Commissioners. He is a trustee of the West Side savings bank, President of the Lincoln Club and a member of the Republican state committee. In 1887 he was elected a State Senator from the eighth district by a plurality of 4,803 over the Democratic candidate and a majority over the whole of 1,661.

THE ED. MURPHY GANG.

They Start a Democratic War in Cohoes—Heads Broken and Boxes Smashed.

[Special dispatch to the New York Tribune.]

COHOES, N. Y., April 5.—This town has been in a ferment all day and the result will probably be a murder or two. The cause is the rivalry between David B. Hill's man "Ed" Murphy, Jr., Chairman of the Democratic State Committee, and the friends of D. Cady Herrick, the Cleveland leader, of Albany, who are fighting for political supremacy in Albany county. As in the West Troy primary election, a few weeks ago, Murphy imported a gang of the most ruffianly men that Rensselaer county can produce, to help carry the day. These men are his most abject servants, and will pick a pocket or smash a man's skull at his bidding.

The row was over the election of Democratic candidates for the ward offices, principally Supervisors. Two years ago John Garside was elected Mayor of Cohoes by the Democrats. He wanted to control the delegates from that city to the County Convention last spring to insure his election to the Democratic National Convention at St. Louis. Mayor Garside was defeated and ex-County Clerk John Larkin, a sworn Cleveland man, chosen. This drew more closely the lines between the Hill and Cleveland Democrats in this city, and the contest between these two factions become so bitter, under the lead of these two Democrats, that Garside, through questionable means, obtained control of the police department and turned out all the old members of the police force and made the force strictly a political machine of his own. He used it to-day in such a manner that rioting and blood-shed are the result.

In two of the wards here the Herrick men carried the day without disturbance; but in the Fourth Ward, after balloting for an hour, it became apparent to the Mayor's men that they were beaten by a large majority, and that their only recourse was to capture the polls and run the election to suit themselves. The police, under orders apparently from the Mayor, broke down the doors of the polling place and smashed the ballot-boxes, scattering the ballots on the floor. This led to a general fight between the inspectors of election, who were Larkin men, and the police, and among the people who were massed on the outside. The police brought a second ballot-box with them and tried to run the Mayor's side of the election. Heads were broken and many men were badly injured.

But the most serious affray was in the First Ward. Here the inspectors were Larkin men, and the Mayor's forces demanded a watcher at the polls. This was granted, but he was compelled to enter the polling place by a rear door. This infuriated the police, who had been sent there by the Mayor to run things, and they demanded admission to the office of O'Day's barn, where the election was taking place. The inspectors denied them admission, claiming that they had no right there. The police battered down the doors and gained admission. In the fight Police Sergeant Barrett was struck over the head with an axe. His skull was fractured, and he is likely to die.

While this row was in progress, one of Larkin's men shoved a pistol through a window and threatened to shoot the first man who came in sight. William O'Brien, a former town officer, was so badly pounded that he had to be carried home. The Mayor's men by force of numbers got possession of the polls and carried things their own way.

To-night Cohoes is in a state of wild excitement. Fights and slugging affrays, almost without number, have taken place, and several men have been carried home with serious injuries. The Sheriff of Albany county has sworn in a posse of men and will keep order, if possible, during the election on Monday, when Murphy and his gang are expected to appear in force.

THE CENTENNIAL FUSS.

How it is Viewed in Another State—Some Ridiculous Features.

[From the Philadelphia Times.]

They are having lots of fun in New York over the proposed centennial commemoration of the inauguration of Washington. The committee having the celebration in charge is carefully selected from the most aristocratic society, and while the common people are to be allowed to look on, only persons of clear descent from revolutionary grandfathers are expected to take part in the official ceremonies.

There is, of course, no rule without an exception, and some of the official personages whom it has been necessary to include, as well as some members of the committee itself, are of rather shady genealogy. Still, the Four Hundred have done the best they could, and they are happy in the good fortune that has sent a President of the United States just at this time who had a distinguished grandfather and great-grandfather, and who is therefore amply qualified to occupy the place of General Washington in the procession. He is to be received, just as Washington was, at Elizabethport, escorted to the city in a barge, and otherwise made an exhibition of. He will not, however, wear the Washington costume.

It is remembered that in Washington's time the President was surrounded with a good deal of aristocratic style, and the committee is determined to show no deterioration from the standard of the original Republican court. It has therefore been compelled, in issuing invitations to the inauguration ball, to draw the line at the Legislature. But the Legislature is expected to pay the bills, and the rural members thus had the committee at a disadvantage. No invitations, no appropriation.

So an emissary of the Four Hundred was sent up to Albany to negotiate. He agreed to invite the Legislature to the ball and to give the members a Grand Stand all to themselves from which to view the procession. This was expected to make peace, but when the Legislators found that the ball tickets were for "one gentleman only" and would not admit their wives and daughters, they were up in arms again.

Negotiations were accordingly renewed, but at this point the members of the committee were obdurate. They might, by a stretch, take in the members themselves, ex officio, but as to the wives and daughters of the Metropolitan Aldermen, the doors that open only to good society must be resolutely closed.

It was hoped that the matter had been finally adjusted on this basis, but it appears that even so purely a formal a concession to the commonalty has broken the heart, as it were, of the Grand Panjandrum himself, and the telegraph brings the appalling news that Mr. Ward McAllister, the special guardian of New York society, has resigned his commission as leader of the ball and washed his hands of the whole affair.

It is believed that the 400 will pull themselves together and bravely maintain their position in spite of the defection of their leader, but the situation is critical. The whole scheme of attempting to reproduce the conditions of a hundred years ago is so absurd that it seems unnecessary to discuss which party to the present quarrel is the most ridiculous. But in any case it furnishes plenty of sport for unsympathetic spectators at a distance.

SPECIAL BUSINESS NOTICES.

What's the sense in saying that Catarrh cannot be cured when Dr. Sage's Catarrh Remedy is so sure and positively certain that the proprietors offer $500 reward for a case of Catarrh which they cannot cure. A full pint of the medicine is made by dissolving one fifty-cent package of the powder in water. Sold by druggists; 50 cents.

IT IS A CURIOUS FACT

That the body is now more susceptible to benefit from medicine than any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is really wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

THEIR BUSINESS BOOMING.

Probably no one thing has caused such a general revival of trade at VanDeusen Bros., Rondout, and F. J. R. Clarke's, Kingston, Drug Stores, as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size $1. Every bottle warranted.

Mr. O. F. Woodward: Dear Sir: Send me one-half gross Kemp's Balsam, 50c. size, and a few samples. I certainly know that Kemp's Balsam is the best selling cough cure. I have fifteen other cough and lung remedies on my shelves, and Kemp's Balsam sells 10 to 1 best of all. Respectfully yours,

DISEASED BLOOD.

Humors, Blotches, Sores, Scales, Crusts, and Loss of Hair Cured.

Terrible Blood Poison. Suffered all a man Could Suffer and Live. Face and Body Covered with Awful Sores. Used the Cuticura Remedies Ten Weeks and is Practically Cured. A Remarkable Case.

I contracted a terrible blood-poisoning a year ago. I doctored with two good physicians, neither of whom did me any good. I suffered all a man can suffer and live. Hearing of your Cuticura Remedies I concluded to try them, knowing if they did me no good they could make me no worse. I have been using them about ten weeks, and am most happy to say that I am almost rid of the awful sores that covered my face and body. My face was as bad, if not worse, than that of Miss Boynton, spoken of in your book, and I would say to any one in the same condition, to use Cuticura, and they will surely be cured. You may use this letter in the interest of suffering humanity. E. W. REYNOLDS, Ashland, Ohio

Covered with Running Sores 17 Years.

I have been troubled with a skin and scalp disease for seventeen years. My head at times was one running sore, and my body was covered with them as large as a half dollar. I tried a great many remedies without effect until I used Cuticura Remedies, and am thankful to state that after two months of their use I am entirely cured. I feel it my duty to you and the public to state the above case. L. R. MCDOWELL, Jamesburg, N. J.

Dug and Scratched 38 Years.

I go Mr. Dennis Downing ten years better. I have dug and scratched for thirty-eight years. I had what is termed pruritis, and have suffered everything, and tried a number of doctors but got no relief. Anybody could have got $500 had they cured me. The Cuticura Remedies cured me. God bless the man who invented Cuticura! CHENEY GREEN, Cambridge, Mass.

SANFORD'S RADICAL CURE FOR CATARRH.

Relief Instantaneous, Cure Rapid, Radical and Permanent.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure for Catarrh

consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and IMPROVED INHALER, all in one package; price, $1. Ask for SANFORD'S RADICAL CURE. Sold everywhere.

INTERESTED PEOPLE.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50 cents and $1. We certainly would advise a trial. It may save you from consumption.

The famous Hop Plasters not only cure every soreness but prevents a return. No failure possible.

A LUCKY MAN.

Mr. Lyman Crawford, Druggist, of Springfield, Mass., says: For years I was afflicted with kidney disease in its worst form, and I state, with a perfect recollection of all that was done for me, that Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., gave me permanent relief.

If your druggist does not keep the medicine, address the proprietor, Rondout, N. Y.

FEMALE BEAUTY.

It is a fortunate thing that all men do not have the same taste in female beauty, for otherwise they would all fall in love with the same woman, which would be awkward. Although the preferences of men for different style of form and feature vary greatly, it is undoubtedly a fact that a face indicative of health is pleasing to all alike. A woman may be without regular features, yet, if healthy, she will be beautiful to some one and pleasing to all. A sallow complexion, a dull eye, a system debilitated by unnatural discharges, in short, all the ils attendant upon the irregularities and "weaknesses" peculiar to the sex, can be banished by the use of Dr. Pierce's Favorite Prescription. Ask your druggist.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

THIS CITY'S BUSINESS

AS TRANSACTED BY THE ALDERMEN LAST NIGHT.

More About That Proposed New Steam Roller—The First Ward Sewer Matter Again Discussed, and Ordinance Finally Adopted.

A session of the Common Council of this City was held in the City Hall last night. Mayor Newkirk presided.

PETITION.

The residents on Chester-street petitioned for a water main on that street, 1,500 feet distant from Union-avenue, and two hydrants.

On motion of Alderman Wieber, the matter was referred to the Committee on Water Supply to report.

COMMUNICATION.

A communication was read from William Lounsbery, attorney for F. W. Gross, stating that the City sewer which enters below Gross' mill has caused a deposit so the water backs in the mill wheels, interfering with the same. "If the matter is not promptly attended to Gross will be driven to commence suit against the City."

On motion of Alderman Brinnier, it was referred to the Committee on Sewers, with power.

FIREMANIC MATTERS.

Cornell Hose Company called attention to the bad condition of the Abeel-street engine house.

Alderman Thompson moved the matter be referred to the Committee on Repairs and Supplies to report, while Alderman Dederick moved an amendment that it be referred to the Fire Committee to report.

Alderman Wieber said that the company desired the Committee to take into consideration the probable cost of putting on a 20-foot addition, take out partitions between two rooms up and down stairs and repair roof.

The amendment was carried.

A communication was read from Weber Hose Company certifying to the election of officers. It was referred to the Committee on Fire Department.

REFERRED.

Claims against the City were read and referred to the Auditing Committee.

MOTIONS.

On motion of Alderman Coogan the petition for two hydrants on Hurley-avenue was taken from the table and the prayer of the petitioner granted.

On motion of Alderman Dederick a walk was ordered laid across Hasbrouck-avenue, westerly side of Foxhall-avenue.

Alderman Kraft moved that hereafter no bids shall be received by any committee of the Common Council or City officer for work for the City, unless accompanied by a good and sufficient bond in double the amount of the sum asked for. All bids must be in the form prescribed by the Committee. Carried.

Alderman Goodsell moved that as the town of Ulster had expended considerable money upon the road leading into this City known as the "Devil's Lake Road," that the Superintendent of Streets be directed to put in good order that part of the road lying within the City limits. Also that the Committee on Lamps report lamps necessary, not exceeding four, to place upon said road.

Alderman Dederick moved it be referred to the Street Committee to report. Carried.

On motion of Alderman Brinnier the Street Superintendent was directed to place a cross-walk on Clinton-avenue at its junction with Liberty-street.

Alderman Purvis moved a lamp be placed on Abeel-street, near Sweeney's mills. On motion of Alderman Thompson it was referred to the Lamp Committee to report.

On motion of Alderman Kraft the Committee on Lamps was directed to report the advisability of placing a lamp on Albany-avenue, between Tremper-avenue and the Railroad bridge. Carried.

Alderman Dederick moved the Committee on Lamps examine the question of putting two lamps on the road that leads to the Alms House and report. Carried.

Alderman Coutant moved that the Lamp Committee examine O'Reilly-street and place a lamp there. Carried.

Alderman Hamburger moved that the Committee on Water Supply be instructed to place a fire hydrant on Chestnut-street, south of Montrepose-avenue, and report. Carried.

Alderman Brinnier moved that the matter of placing a hydrant on Pine Grove-avenue be referred to the Committee on Water Supply to report. Carried.

Alderman Murray moved that the Street Superintendent be directed to fill up mud holes on Third-avenue. Carried.

Alderman Murray moved that Augustus Van Buren be heard in relation to bills of Officers Sullivan and Cahill for patrolling Union-avenue by order of the Mayor. Carried.

Mr. Van Buren gave a statement of their case, claiming they were entitled to pay for the month of September which had been disallowed.

Alderman Beck moved it be referred to the Corporation Counsel. Alderman Thompson moved it be referred back to the Auditing Committee. Alderman Coutant moved that a warrant be issued for the amount of the bills. The amendment was carried.

Alderman Thompson said a brick building owned by one Mooney, on Abeel-street, near South Rondout ferry, was in a dangerous condition, and moved it be referred to the Board of Health to attend to immediately. Carried.

Alderman Kraft moved that the Superintendent of Streets clean the ditches on the lowland of the dirt deposited in them by surface water. Carried

On motion of Alderman Brinnier tax warrants were extended 30 days.

COMMITTEES' REPORTS.

The Committee on Steam Roller reported that they had been waited upon by agents of Avelling & Porte, of England, and Hansburg Roller Company, of Pennsylvania, and recommended that the agents of said companies be invited to give a competitive trial of their 10-ton rollers in the presence of the Mayor and Common Council Friday afternoon, May 10, at 2 o'clock, and at the meeting of the Common Council Friday evening, May 10, proposals be received for said steam rollers. Adopted.

The Committee on Auditing Accounts reported bills audited; also monthly pay roll $1,080.45. The report was adopted.

Alderman Brinnier, of the Committee on Streets, reported that he had examined the street at the corner of Sycamore and Catherine and recommended that the Street Superintendent repair the same. Also that the City Clerk notify Matthew Larkin, Jr., to have his curb and gutter reset. Adopted.

Further time was granted in relation to the bridge on Hasbrouck-avenue.

Alderman Thompson moved the City Engineer be added to the Street Committee in reference to Hasbrouck-avenue bridge. Carried.

Alderman Dolson said that the Fire Committee had examined No. 4 engine house to ascertain repairs necessary. They found a person occupying four feet of the City lot. "It should be first settled how much the City owns." He moved the matter be referred to the Corporation Counsel and the City Engineer to report. Carried. The Committee also had examined Rescue Hook and Ladder Company building. Found the carpet had not been injured. No damage done by leakage. Report was adopted.

Alerman Wieber, of the Committee on Sewers, reported in regard to the open ditch junction of Albany-avenue and Pearl-street, and recommended that an underground drain be built to intersect the one on the opposite side of the street and ditch be filled up to the level of the roadway, the work to be done under the supervision of Street Superintendent and City Engineer. Adopted.

SEWER ORDINANCE PASSED.

Alderman Wieber, of the Sewer Committee, recommended the adoption of an ordinance to provide for a system of sewerage for the First Ward, according to report of Engineer Childs. The ordinance is to provide for the construction of a main running from Linderman-avenue to Esopus Creek, the outlet at or near the mouth of the tannery brook, lateral sewers to be constructed in the First Ward to be connected with the main sewer, through Green, Crown, Wall and Fair-streets, Clinton and Albany-avenues, Pine-street, Maiden Lane, Pearl, Main, John and North Front-streets, 25 per cent. for main and laterals to be paid by general tax on the City and 75 per cent. be paid by special assessment upon real estate the Assessors shall deem more immediately benefited.

Alderman TenBroeck moved the ordinance be adopted as read.

Alderman Brinnier objected to the ordinance on the grounds "We have no right to empty sewers in the Esopus Creek. No arrangement has been made with the Water Company to furnish water to flush the sewers. The system should be of sufficient capacity to carry off the sewage for a greater number of inhabitants in case it is so desired as the City increases in population."

Alderman Kraft answered at length on the necessity of sewers, claiming that men from abroad who would have invested in real estate here have been forced to go to other places because there was no system of sewerage. That a man named McCoun came to this City to invest in real estate, found there were no sewers, went to Newburgh, purchased a piece of ground and erected 80 buildings on the same valued at from $2,000 to $10,000 each. He spoke of the report of the State Board of Health favoring sewers for Kingston.

Alderman Coutant said he did not know as this City wanted any more tenement houses, but thought sewers would be a benefit to manufacturers. Unless there were sewers he did not see how people would come here and put up manufactories.

The roll was called and the ordinance was adopted. Ayes, TenBroeck, Kraft, Dederick, Dolson, Cordts, Goodsell, Beck, Weiss, Wieber, Thompson, Hamburger, Coogan, Purvis, Coutant, 14; noes, Murray and Brinnier, 2.

Alderman Wieber moved the City Engineer be directed to get the necessary plans and specifications ready, and report the same to the Common Council, in order that bids might be advertised for. Carried.

ADJOURNMENT.

The Common Council adjourned for one week.

SOME TEMPERANCE LITERATURE.

Contributed by the Rondout Women's Christian Temperance Union.

The Women's Christian Temperance Union, of Rondout, contributes the following to THE FREEMAN:

INTOXICATING LIQUORS.

They deprive men of their reason for the time being.

They destroy men of the greatest intellectual strength.

They foster and encourage every species of immorality.

They bar the progress of civilization and religion.

They destroy the peace and happiness of tens of thousands of families.

They reduce many virtuous wives and children to beggary.

They cause many thousands of murders.

They prevent all reformation of characters.

They render abortive the strongest resolutions.

The millions of property expended in them are lost.

They cause the majority of cases of insanity.

They destroy both the body and the soul.

They burden sober people with millions for the support of paupers.

They cause immense expenditures to prevent crime.

They cost sober people immense sums in charity.

They burden the country with enormous taxes.

Moderate drinkers want the temptation removed.

Drunkards want the opportunity removed.

Sober people want the nuisance removed.

Tax-payers want the burden removed.

The prohibition would save thousands now falling.

The sale exposes our families to destruction.

The sale exposes our persons to insult.

The sale upholds the vicious and idle at the expense of the industrious and virtuous.

The sale subjects the sober to great oppression.

WELL ANSWERED.

To the question, "what will prohibition do?" an exchange pertinently replies that it will destroy the political power of the saloon; it will turn millions of dollars now wasted for poor liquor into legitimate channels of trade and increase the business of those who have something valuable to dispose of.

It will also decrease the amount of crime, reduce the number of criminals, lessen the cost of running our jails and penitentiaries by diminishing the number of inmates in them, lessen the cost of litigation, and decrease the expense of prosecuting criminals.

Furthermore, it will keep thousands of otherwise good husbands and fathers from wasting their means and their families' means on that which makes them all miserable.

It will close up nearly all the saloons in the State and be the means of arraying all the law and order element on one side, and make outlaws of those who persist in selling liquor.

It will make liquor selling contrary to law and therefore dishonorable.

It will be one great means of educating the public consciences as to the evil of liquor drinking everywhere.—*Mail and Express.*

GENERAL SHERIDAN'S WAR HORSE.

The Faithful Animal Described in "Personal Memoirs"—Endurance.

General P. H. Sheridan, in his "Personal Memoirs," describes his black horse, Rienzi, made historical from having been ridden in many battles, conspicuously in the ride from Winchester to Cedar Creek, which has been celebrated in the poem by T. Buchanan Read. According to the "Memoirs" the horse was of Morgan stock, and when presented to him by Captain Campbell, of the Second Michigan Cavalry, in 1862, was about three years old. Rienzi is described in the "Memoirs" as follows: "He was jet black, excepting three white feet, 16 hands high, and strongly built, with great powers of endurance. He was so active that he could cover with ease five miles an hour at his natural walking gait. * * * Campbell presented him to me on one of these visits, and from that time until the close of the war I rode him almost continuously in every campaign and battle in which I took part, without once finding him overcome by fatigue, though on many occasions his strength was severely tested by long marches and short rations. I never observed in him any vicious habits; a nervousness and restlessness and switch of the tail when everything about him was in repose being the only indication that he might be untrustworthy. No one but a novice could be deceived by this, however, for the intelligence evinced in every feature, and his thoroughbred appearance were so striking that any person accustomed to horses could not misunderstand such a noble animal. * * * Although he was several times wounded, this horse escaped death in action; and living to a ripe old age, died in 1878, attended to the last with all the care, and surrounded with every comfort due the faithful service he had rendered."

THE "OLD LEATHER MAN'S" COSTUME.

Patches United by Leather Thongs—Mellowed by Time.

In an article telling of the "Leather Man" recently found dead in the town of Mt. Pleasant, Westchester County, the *Highland Democrat* thus describes the costume which gave the deceased his name: "Breeches, jacket and boots were a mosaic of patches taken from old bootlegs. These fragments were united by leather thongs, laced like a shoe-tie. The whole fabric was mellowed by time and stress of weather, and dirt, to a rich russet tint that, despite its uncleanliness, would render it a thing of beauty to an artist. The jacket had huge pouches or pockets on the inside, and the garment must weigh, when these receptables are empty of the miscellaneous assortment of old 'junk' found in them, not less than 30 pounds. The breeches were nearly as heavy, and the boots, fabricated in the same remarkable fashion, had wooden soles at least two inches thick. It is thought that this same suit had served as the dead man's apparel for nearly 30 years. Summers and winters he wore it, and no one ever saw him in any other kind of attire."

FATAL PRAIRIE FIRES.

FARMERS WHO HAVE BEEN MADE HOMELESS AND DESTITUTE.

Thrilling Scenes and Incidents in Dakota—Miles of Blistered and Scorched Territory—Great Loss of Property—Wind 60 Miles an Hour.

By Telegraph to The Freeman.

ST. PAUL, April 6.—The list of losses by the prairie fires in Dakota increase and the descriptions of hair-breadth escapes are thrilling. In Yankton County alone the damage in $150,000. Near Rapid City Professor G. E. Bailey's ranch was destroyed. When a party of neighbors drove through the blinding smoke at the rear of the house an appalling sight met their gaze. Standing in a little hollow beneath the ruins of the house was Eloise Madison, blistered and scorched and burned, without hardly a shred of clothing upon her. The girl must have been in the condition in which she was found for at least a quarter of an hour. Her clothing, save the collar of her dress, part of the stocking on the right foot and the right shoe had been completely burned from her body. Standing unaided and conscious of her terrible condition she greeted the first person to her assistance with the ejaculation: "My God, can't you do something for me." Strong men shuddered and for a minute turned away, but for a moment only, when ready hands did everything that could be done for her. Mrs. G. E. Bailey, in whose employ the young girl was, and William Ashton, the hired man, had a very narrow escape, and suffered painful but not dangerous injuries. Mrs. Bailey says when the fire caught the dwelling house it blazed like tinder and allowed them no alternative but to run for their lives. This they did, Mr. Ashton taking each of the women by the arm and starting with them through the smoke and flames. They had gone but a short distance when Miss Madison fell. The smoke was so thick that when they stopped to look for her she could not be seen, and thinking she had gone in another direction, they resumed their efforts to escape. After a severe struggle they succeeded in getting to the windward side of the fire, and made their way to a neighboring ranch.

At George Hunt's place the family had just seated themselves at the dinner table, when Mrs. Hunt saw sparks flying in the kitchen. Seizing a blanket apiece, the people in the house threw them over their heads and started from the building. By good fortune all succeeded in reaching a place of safety. For 20 feet their path was through a sheet of flame 50 feet high. Many of the other farms on Rapid Valley barely escaped the wild flames which sped across the ground like a flash of lightning. The wind was blowing at the rate of 60 miles an hour. Had the velocity of the wind been less more damage would have resulted. As it was, the fire was confined to a narrow strip of country, enabling those from the City to beat out the flames with sacks. Thousands of dollars worth of property was destroyed within 10 miles of Freeman. Thirty-two families lost their homes, only escaping partly clothed. Machinery, grain, hay and a great amount of stock were burned. The unfortunate farmers are entirely destitute and without food or shelter.

In Douglass County the fire was one of the worst ever known. Many farmers lost everything and are homeless and destitute. The house of William Cline was burned, Mrs. Cline perishing in the flames. She was 70 years old, and was the mother of E. W. Cline, Prosecuting Attorney of Douglas County. Near Oakwood Lake lives Frank Goodfellow. He was away from home when the fire came. Mrs. Goodfellow and three chiidred heroically fought the flames several hours, and then were forced to get down on their knees while the flames passed over them. Mrs. Goodfellow is so badly burned that she will probably die.

In Brule County casualties are being reported daily. Fully 100 families have lost everything, the loss reaching $150,000. Two women were burned to death near Chamberlain. It is reported at the latter place that the fire was started by Indians on the reservation. The Crow Creek Agency had a narrow escape.

FIVE MILLION FEET OF LOGS SEIZED.

They Were Cut From Indian Reservations by Various Lumber Companies.

By Telegraph to The Freeman.

ST. PAUL, April 6.—United States Marshal Campbell returned, yesterday, from Cloquet, where he went Monday, to look up matters connected with the replevin suit brought by the Government against the C. N. Nelson Lumber Company, the Cloquet Lumber Company, Patrick Hynes and Andrew Gowan, for lumber cut on the Indian reservations. Mr. Campbell formally seized in the name of the Government 5,000,000 feet of logs which are thus tied up.

Hog Cholera in West Virginia.

By Telegraph to The Freeman.

WHEELING, W. Va., April 6.—Malignant hog cholera has broken out at West Liberty. Many hogs have died and many more are ill. The farmers have kept the matter secret. Vigorous steps will be taken to stamp out the disease.

THE STOCK AND MONEY MARKET.

NEW-YORK, April 6.—The stock market opened with a moderate volume of business this morning, in which the grangers, Atchison, Reading and Louisville & Nashville were most conspicuous. First prices were strong, the advances over last evening's figures extending to ⅛ per cent. in Omaha. The market became dull and stagnant toward the end of the hour, and at 11 o'clock was dull and steady. The closing quotations:

SPECIAL BUSINESS NOTICES.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. PILES! PILES! ITCHING PILES.

Symptoms—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cent. Dr. Swayne & Son, Philadelphia.

ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin Shiloh's Vitalizer is a positive cure. Sold by Frederick J. R. Clark.

CURABILITY OF CONSUMPTION.

This has been a vexed question among physicians, opinions, even in the same school, being strangely divergent. Of this, however, the public are convinced: it is a terribly prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality scrofula of the lungs, and is liable to attack any whose blood is tainted. For driving out the scrofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies the bad blood, heals scrofulous ulcers, and, whatever differences of opinion exists as to curing advanced cases of consumption, it remains that many pronounced "incurable" have been by it brought back from the brink of the grave to restored health and vigor.

NO OTHER

As good. This is the statement of Professor Smith, Analytical Chemist: I have analyzed all of the popular blood purifiers and medicines now sold. Many of them I found to be worthless, some dangerous to use. Sulphur Bitters contains nothing poisonous, and I think it is the best blood purifier made.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

SHILOH'S CATARRH REMEDY—A positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by Frederick J. R. Clark.

"When the spring-time comes," we usually find ourselves drowsy and exhausted, owing to the impure and sluggish state of the blood. To remedy this trouble take Ayer's Sarsaparilla, the most powerful, yet safe and economical blood-purifier in existence.

"THE TABLE ROBS MORE THAN THE THIEF."

Over-indulgence at the table robs many a one of good health, and without health life is not worth living. Little Hop Pills always cure such excesses and regulate the liver. All druggists sell them. Try. Judge.

The body is more susceptible to benefit from Hood's Sarsaparilla now than at any other season. Therefore take it now.

Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind-colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not. Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes is to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by F. J. R. Clarke, Kingston.

You feel like giving up, your back pains you so? Apply a Hop Plaster—infallible!

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. Ely's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, 1st Division New-York Appraiser's Office.

For several years I have been troubled with catarrh. Ely's Cream Balm has proved to be the article desired. I believe it the only cure.—L. B. Coburn, Merchant, Towanda, Pa.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend the Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

THIS CITY'S BUSINESS

AS TRANSACTED BY THE ALDERMEN LAST NIGHT.

More About That Proposed New Steam Roller—The First Ward Sewer Matter Again Discussed, and Ordinance Finally Adopted.

A session of the Common Council of this City was held in the City Hall last night. Mayor Newkirk presided.

PETITION.

The residents on Chester-street petitioned for a water main on that street, 1,500 feet distant from Union-avenue, and two hydrants.

On motion of Alderman Wieber, the matter was referred to the Committee on Water Supply to report.

COMMUNICATION.

A communication was read from William Lounsbery, attorney for F. W. Gross, stating that the City sewer which enters below Gross' mill has caused a deposit so the water backs in the mill wheels, interfering with the same. "If the matter is not promptly attended to Gross will be driven to commence suit against the City."

On motion of Alderman Brinnier, it was referred to the Committee on Sewers, with power.

FIREMANIC MATTERS.

Cornell Hose Company called attention to the bad condition of the Abeel-street engine house.

Alderman Thompson moved the matter be referred to the Committee on Repairs and Supplies to report, while Alderman Dederick moved an amendment that it be referred to the Fire Committee to report.

Alderman Wieber said that the company desired the Committee to take into consideration the probable cost of putting on a 20-foot addition, take out partitions between two rooms up and down stairs and repair roof.

The amendment was carried.

A communication was read from Weber Hose Company certifying to the election of officers. It was referred to the Committee on Fire Department.

REFERRED.

Claims against the City were read and referred to the Auditing Committee.

MOTIONS.

On motion of Alderman Coogan the petition for two hydrants on Hurley-avenue was taken from the table and the prayer of the petitioner granted.

On motion of Alderman Dederick a walk was ordered laid across Hasbrouck-avenue, westerly side of Foxhall-avenue.

Alderman Kraft moved that hereafter no bids shall be received by any committee of the Common Council or City officer for work for the City, unless accompanied by a good and sufficient bond in double the amount of the sum asked for. All bids must be in the form prescribed by the Committee. Carried.

Alderman Goodsell moved that as the town of Ulster had expended considerable money upon the road leading into this City known as the "Devil's Lake Road," that the Superintendent of Streets be directed to put in good order that part of the road lying within the City limits. Also that the Committee on Lamps report lamps necessary, not exceeding four, to place upon said road.

Alderman Dederick moved it be referred to the Street Committee to report. Carried.

On motion of Alderman Brinnier the Street Superintendent was directed to place a cross-walk on Clinton-avenue at its junction with Liberty-street.

Alderman Purvis moved a lamp be placed on Abeel-street, near Sweeney's mills. On motion of Alderman Thompson it was referred to the Lamp Committee to report.

On motion of Alderman Kraft the Committee on Lamps was directed to report the advisability of placing a lamp on Albany-avenue, between Tremper-avenue and the Railroad bridge. Carried.

Alderman Dederick moved the Committee on Lamps examine the question of putting two lamps on the road that leads to the Alms House and report. Carried.

Alderman Coutant moved that the Lamp Committee examine O'Reilly-street and place a lamp there. Carried.

Alderman Hamburger moved that the Committee on Water Supply be instructed to place a fire hydrant on Chestnut-street, south of Montrepose-avenue, and report. Carried.

Alderman Brinnier moved that the matter of placing a hydrant on Pine Grove-avenue be referred to the Committee on Water Supply to report. Carried.

Alderman Murray moved that the Street Superintendent be directed to fill up mud holes on Third-avenue. Carried.

Alderman Murray moved that Augustus Van Buren be heard in relation to bills of Officers Sullivan and Cahill for patrolling Union-avenue by order of the Mayor. Carried.

Mr. Van Buren gave a statement of their case, claiming they were entitled to pay for the month of September which had been disallowed.

Alderman Beck moved it be referred to the Corporation Counsel. Alderman Thompson moved it be referred back to the Auditing Committee. Alderman Coutant moved that a warrant be issued for the amount of the bills. The amendment was carried.

Alderman Thompson said a brick building owned by one Mooney, on Abeel-street, near South Rondout ferry, was in a dangerous condition, and moved it be referred to the Board of Health to attend to immediately. Carried.

Alderman Kraft moved that the Superintendent of Streets clean the ditches on the lowland of the dirt deposited in them by surface water. Carried

On motion of Alderman Brinnier tax warrants were extended 30 days.

COMMITTEES' REPORTS.

The Committee on Steam Roller reported that they had been waited upon by agents of Avelling & Porte, of England, and Hansburg Roller Company, of Pennsylvania, and recommended that the agents of said companies be invited to give a competitive trial of their 10-ton rollers in the presence of the Mayor and Common Council Friday afternoon, May 10, at 2 o'clock, and at the meeting of the Common Council Friday evening, May 10, proposals be received for said steam rollers. Adopted.

The Committee on Auditing Accounts reported bills audited; also monthly pay roll $1,080.45. The report was adopted.

Alderman Brinnier, of the Committee on Streets, reported that he had examined the street at the corner of Sycamore and Catherine and recommended that the Street Superintendent repair the same. Also that the City Clerk notify Matthew Larkin, Jr., to have his curb and gutter reset. Adopted.

Further time was granted in relation to the bridge on Hasbrouck-avenue.

Alderman Thompson moved the City Engineer be added to the Street Committee in reference to Hasbrouck-avenue bridge. Carried.

Alderman Dolson said that the Fire Committee had examined No. 4 engine house to ascertain repairs necessary. They found a person occupying four feet of the City lot. "It should be first settled how much the City owns." He moved the matter be referred to the Corporation Counsel and the City Engineer to report. Carried. The Committee also had examined Rescue Hook and Ladder Company building. Found the carpet had not been injured. No damage done by leakage. Report was adopted.

Alerman Wieber, of the Committee on Sewers, reported in regard to the open ditch junction of Albany-avenue and Pearl-street, and recommended that an underground drain be built to intersect the one on the opposite side of the street and ditch be filled up to the level of the roadway, the work to be done under the supervision of Street Superintendent and City Engineer. Adopted.

SEWER ORDINANCE PASSED.

Alderman Wieber, of the Sewer Committee, recommended the adoption of an ordinance to provide for a system of sewerage for the First Ward, according to report of Engineer Childs. The ordinance is to provide for the construction of a main running from Linderman-avenue to Esopus Creek, the outlet at or near the mouth of the tannery brook, lateral sewers to be constructed in the First Ward to be connected with the main sewer, through Green, Crown, Wall and Fair-streets, Clinton and Albany-avenues, Pine-street, Maiden Lane, Pearl, Main, John and North Front-streets, 25 per cent. for main and laterals to be paid by general tax on the City and 75 per cent. be paid by special assessment upon real estate the Assessors shall deem more immediately benefited.

Alderman TenBroeck moved the ordinance be adopted as read.

Alderman Brinnier objected to the ordinance on the grounds "We have no right to empty sewers in the Esopus Creek. No arrangement has been made with the Water Company to furnish water to flush the sewers. The system should be of sufficient capacity to carry off the sewage for a greater number of inhabitants in case it is so desired as the City increases in population."

Alderman Kraft answered at length on the necessity of sewers, claiming that men from abroad who would have invested in real estate here have been forced to go to other places because there was no system of sewerage. That a man named McCoun came to this City to invest in real estate, found there were no sewers, went to Newburgh, purchased a piece of ground and erected 80 buildings on the same valued at from $2,000 to $10,000 each. He spoke of the report of the State Board of Health favoring sewers for Kingston.

Alderman Coutant said he did not know as this City wanted any more tenement houses, but thought sewers would be a benefit to manufacturers. Unless there were sewers he did not see how people would come here and put up manufactories.

The roll was called and the ordinance was adopted. Ayes, TenBroeck, Kraft, Dederick, Dolson, Cordts, Goodsell, Beck, Weiss, Wieber, Thompson, Hamburger, Coogan, Purvis, Coutant, 14; noes, Murray and Brinnier, 2.

Alderman Wieber moved the City Engineer be directed to get the necessary plans and specifications ready, and report the same to the Common Council, in order that bids might be advertised for. Carried.

ADJOURNMENT.

The Common Council adjourned for one week.

SOME TEMPERANCE LITERATURE.

Contributed by the Rondout Women's Christian Temperance Union.

The Women's Christian Temperance Union, of Rondout, contributes the following to THE FREEMAN:

INTOXICATING LIQUORS.

They deprive men of their reason for the time being.

They destroy men of the greatest intellectual strength.

They foster and encourage every species of immorality.

They bar the progress of civilization and religion.

They destroy the peace and happiness of tens of thousands of families.

They reduce many virtuous wives and children to beggary.

They cause many thousands of murders.

They prevent all reformation of characters.

They render abortive the strongest resolutions.

The millions of property expended in them are lost.

They cause the majority of cases of insanity.

They destroy both the body and the soul.

They burden sober people with millions for the support of paupers.

They cause immense expenditures to prevent crime.

They cost sober people immense sums in charity.

They burden the country with enormous taxes.

Moderate drinkers want the temptation removed.

Drunkards want the opportunity removed.

Sober people want the nuisance removed.

Tax-payers want the burden removed.

The prohibition would save thousands now falling.

The sale exposes our families to destruction.

The sale exposes our persons to insult.

The sale upholds the vicious and idle at the expense of the industrious and virtuous.

The sale subjects the sober to great oppression.

WELL ANSWERED.

To the question, "what will prohibition do?" an exchange pertinently replies that it will destroy the political power of the saloon; it will turn millions of dollars now wasted for poor liquor into legitimate channels of trade and increase the business of those who have something valuable to dispose of.

It will also decrease the amount of crime, reduce the number of criminals, lessen the cost of running our jails and penitentiaries by diminishing the number of inmates in them, lessen the cost of litigation, and decrease the expense of prosecuting criminals.

Furthermore, it will keep thousands of otherwise good husbands and fathers from wasting their means and their families' means on that which makes them all miserable.

It will close up nearly all the saloons in the State and be the means of arraying all the law and order element on one side, and make outlaws of those who persist in selling liquor.

It will make liquor selling contrary to law and therefore dishonorable.

It will be one great means of educating the public consciences as to the evil of liquor drinking everywhere.—*Mail and Express.*

GENERAL SHERIDAN'S WAR HORSE.

The Faithful Animal Described in "Personal Memoirs"—Endurance.

General P. H. Sheridan, in his "Personal Memoirs," describes his black horse, Rienzi, made historical from having been ridden in many battles, conspicuously in the ride from Winchester to Cedar Creek, which has been celebrated in the poem by T. Buchanan Read. According to the "Memoirs" the horse was of Morgan stock, and when presented to him by Captain Campbell, of the Second Michigan Cavalry, in 1862, was about three years old. Rienzi is described in the "Memoirs" as follows: "He was jet black, excepting three white feet, 16 hands high, and strongly built, with great powers of endurance. He was so active that he could cover with ease five miles an hour at his natural walking gait. * * * Campbell presented him to me on one of these visits, and from that time until the close of the war I rode him almost continuously in every campaign and battle in which I took part, without once finding him overcome by fatigue, though on many occasions his strength was severely tested by long marches and short rations. I never observed in him any vicious habits; a nervousness and restlessness and switch of the tail when everything about him was in repose being the only indication that he might be untrustworthy. No one but a novice could be deceived by this, however, for the intelligence evinced in every feature, and his thoroughbred appearance were so striking that any person accustomed to horses could not misunderstand such a noble animal. * * * Although he was several times wounded, this horse escaped death in action; and living to a ripe old age, died in 1878, attended to the last with all the care, and surrounded with every comfort due the faithful service he had rendered."

THE "OLD LEATHER MAN'S" COSTUME.

Patches United by Leather Thongs—Mellowed by Time.

In an article telling of the "Leather Man" recently found dead in the town of Mt. Pleasant, Westchester County, the *Highland Democrat* thus describes the costume which gave the deceased his name: "Breeches, jacket and boots were a mosaic of patches taken from old bootlegs. These fragments were united by leather thongs, laced like a shoe-tie. The whole fabric was mellowed by time and stress of weather, and dirt, to a rich russet tint that, despite its uncleanliness, would render it a thing of beauty to an artist. The jacket had huge pouches or pockets on the inside, and the garment must weigh, when these receptables are empty of the miscellaneous assortment of old 'junk' found in them, not less than 30 pounds. The breeches were nearly as heavy, and the boots, fabricated in the same remarkable fashion, had wooden soles at least two inches thick. It is thought that this same suit had served as the dead man's apparel for nearly 30 years. Summers and winters he wore it, and no one ever saw him in any other kind of attire."

FATAL PRAIRIE FIRES.

FARMERS WHO HAVE BEEN MADE HOMELESS AND DESTITUTE.

Thrilling Scenes and Incidents in Dakota—Miles of Blistered and Scorched Territory—Great Loss of Property—Wind 60 Miles an Hour.

By Telegraph to The Freeman.

ST. PAUL, April 6.—The list of losses by the prairie fires in Dakota increase and the descriptions of hair-breadth escapes are thrilling. In Yankton County alone the damage in $150,000. Near Rapid City Professor G. E. Bailey's ranch was destroyed. When a party of neighbors drove through the blinding smoke at the rear of the house an appalling sight met their gaze. Standing in a little hollow beneath the ruins of the house was Eloise Madison, blistered and scorched and burned, without hardly a shred of clothing upon her. The girl must have been in the condition in which she was found for at least a quarter of an hour. Her clothing, save the collar of her dress, part of the stocking on the right foot and the right shoe had been completely burned from her body. Standing unaided and conscious of her terrible condition she greeted the first person to her assistance with the ejaculation: "My God, can't you do something for me." Strong men shuddered and for a minute turned away, but for a moment only, when ready hands did everything that could be done for her. Mrs. G. E. Bailey, in whose employ the young girl was, and William Ashton, the hired man, had a very narrow escape, and suffered painful but not dangerous injuries. Mrs. Bailey says when the fire caught the dwelling house it blazed like tinder and allowed them no alternative but to run for their lives. This they did. Mr. Ashton taking each of the women by the arm and starting with them through the smoke and flames. They had gone but a short distance when Miss Madison fell. The smoke was so thick that when they stopped to look for her she could not be seen, and thinking she had gone in another direction, they resumed their efforts to escape. After a severe struggle they succeeded in getting to the windward side of the fire, and made their way to a neighboring ranch.

At George Hunt's place the family had just seated themselves at the dinner table, when Mrs. Hunt saw sparks flying in the kitchen. Seizing a blanket apiece, the people in the house threw them over their heads and started from the building. By good fortune all succeeded in reaching a place of safety. For 20 feet their path was through a sheet of flame 50 feet high. Many of the other farms on Rapid Valley barely escaped the wild flames which sped across the ground like a flash of lightning. The wind was blowing at the rate of 60 miles an hour. Had the velocity of the wind been less more damage would have resulted. As it was, the fire was confined to a narrow strip of country, enabling those from the City to beat out the flames with sacks. Thousands of dollars worth of property was destroyed within 10 miles of Freeman. Thirty-two families lost their homes, only escaping partly clothed. Machinery, grain, hay and a great amount of stock were burned. The unfortunate farmers are entirely destitute and without food or shelter.

In Douglass County the fire was one of the worst ever known. Many farmers lost everything and are homeless and destitute. The house of William Cline was burned, Mrs. Cline perishing in the flames. She was 70 years old, and was the mother of E. W. Cline, Prosecuting Attorney of Douglas County. Near Oakwood Lake lives Frank Goodfellow. He was away from home when the fire came. Mrs. Goodfellow and three children heroically fought the flames several hours, and then were forced to get down on their knees while the flames passed over them. Mrs. Goodfellow is so badly burned that she will probably die.

In Brule County casualties are being reported daily. Fully 100 families have lost everything, the loss reaching $150,000. Two women were burned to death near Chamberlain. It is reported at the latter place that the fire was started by Indians on the reservation. The Crow Creek Agency had a narrow escape.

FIVE MILLION FEET OF LOGS SEIZED.

They Were Cut From Indian Reservations by Various Lumber Companies.

By Telegraph to The Freeman.

ST. PAUL, April 6.—United States Marshal Campbell returned, yesterday, from Cloquet, where he went Monday, to look up matters connected with the replevin suit brought by the Government against the C. N. Nelson Lumber Company, the Cloquet Lumber Company, Patrick Hynes and Andrew Gowan, for lumber cut on the Indian reservations. Mr. Campbell formally seized in the name of the Government 5,000,000 feet of logs which are thus tied up.

Hog Cholera in West Virginia.

By Telegraph to The Freeman.

WHEELING, W. Va., April 6.—Malignant hog cholera has broken out at West Liberty. Many hogs have died and many more are ill. The farmers have kept the matter secret. Vigorous steps will be taken to stamp out the disease.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin Shiloh's Vitalizer is a positive cure. Sold by Frederick J. R. Clark.

CURABILITY OF CONSUMPTION.

This has been a vexed question among physicians, opinions, even in the same school, being strangely divergent. Of this, however, the public are convinced: it is a terribly prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality scrofula of the lungs, and is liable to attack any whose blood is tainted. For driving out the scrofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies the bad blood, heals scrofulous ulcers, and, whatever differences of opinion exists as to curing advanced cases of consumption, it remains that many pronounced "incurable" have been by it brought back from the brink of the grave to restored health and vigor.

NO OTHER

As good. This is the statement of Professor Smith, Analytical Chemist: I have analyzed all of the popular blood purifiers and medicines now sold. Many of them I found to be worthless, some dangerous to use. Sulphur Bitters contains nothing poisonous, and I think it is the best blood purifier made.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

SHILOH'S CATARRH REMEDY—A positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by Frederick J. R. Clark.

"When the spring-time comes," we usually find ourselves drowsy and exhausted, owing to the impure and sluggish state of the blood. To remedy this trouble take Ayer's Sarsaparilla, the most powerful, yet safe and economical blood-purifier in existence.

"THE TABLE ROBS MORE THAN THE THIEF."

Over-indulgence at the table robs many a one of good health, and without health life is not worth living. Little Hop Pills always cure such excesses and regulate the liver. All druggists sell them. Try. Judge.

The body is more susceptible to benefit from Hood's Sarsaparilla now than at any other season. Therefore take it now.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind-colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not, Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by F. J. R. Clarke, Kingston.

PNEUMONIA, THE MOST DANGEROUS

of all acute attacks, prevented by the use of the great Hoxsie preparations. The greatest remedies in the world, for Lung and Throat Troubles. 25 cts.

You feel like giving up, your back pains you so? Apply a Hop Plaster—infallible!

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. Ely's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, 1st Division New-York Appraiser's Office.

For several years I have been troubled with catarrh. Ely's Cream Balm has proved to be the article desired. I believe it the only cure.—L. B. Coburn, Merchant, Towanda, Pa.

METHODIST CONFERENCE

NOW IN SESSION IN THE ELIZABETH-STREET CHURCH, N. Y.

J. H. Lane, of West Stockbridge, Mass., who is well known in this City, is in New-York attending the M. E. Conference, which is in session in that City. He writes to THE FREEMAN as follows:

YESTERDAY'S PROCEEDINGS.

At the opening of the New-York M. E. Conference, yesterday, committees were appointed on Deaconesses, Conference Chronology and Chaplains of the United States Navy.

The Revs. Messrs. E. S. Osbon, D. D., R. H. Travis and John S. McClain were elected Trustees for the Conference.

The Rev. J. M. King, D. D., introduced a paper, "Protesting against the passage of bill No. 894, now before the Assembly, as diverting the public school funds for sectarian purposes," which by a rising vote, was unanimously ordered forwarded.

The Bishop called for the report of the Poughkeepsie District, which was made by the Rev. S. I. Ferguson in place of Dr. G. S. Hare, deceased.

The Rev. W. A. Dalton, of Pleasant Valley, withdrew from the Conference and returned his ordination papers.

The Rev. F. J. Belcher, P. E., of the Newburgh District reported: "The work is in a prosperous condition. Revivals have prevailed in 42 of the charges. New churches had been built at Downsville and Long Eddy, and repairs made at several other places in the District. The missionary collections were larger than in any previous year."

The Rev. Alfred Coons, P. E., of the Kingston District, presented his report. He said that revivals had prevailed in the District which had resulted in 1,600 conversions. The benevolent collections, the Presiding Elder stated, were in advance of last year. He favorably alluded to the new Parsonage of St. James Church, Kingston.

The Rev. E. L. Allen was reported as transferred, and the Rev. L. S. Brown as taking a superannuated relation.

The Rev. M. C. Crawford offered a resolution touching the action taken by the Board of Trustees of the Eighteenth-Street M. E. Church, who for two years past have refused to pay the interest of what is known as the "Depeyster Legacy," to the Conference on the ground they have no right so to do. The resolution was adopted.

Professor W. N. Rice, Ph. D., of Wesleyan University, and Professor A. H. Flack, of the Claverack College, addressed the Conference.

The examination of candidates for Orders was taken up, and the following advanced: T. H. W. Baragwaneth, D. W. B. Thompson, W. F. Albrecht, J. W. Burkins, G. W. Thompson, R. Kikelhan, V. D. Mattice, T. R. Sweetmen, S. H. Scott, A. L. Shear, W. R. Evans, C. H. Snedeker, W. F. Anderson, O. H. Harpendon, F. C. Summers, A. M. Griffin, W. A. Fuller, Elmer E. Count, D. W. Howell, Ambrose Quick, H. M. Mace and G. F. Starks.

According to a report made the following collections for missions were taken:

New-York District	$30,853

Kingston District	3,918

This is an increase of $1,598 over the last year's collections.

VISITORS TO THE ULSTER CO. JAIL.

One Young Woman who Wanted to See and Know All.

There are many visitors to the Ulster County Jail in Kingston. The most of the visits are made to satisfy curiosity. Country people who come to Kingston like to visit the jail as one of the sights of the place. Now and then a party of women ask the Jailer to allow them to take a look inside. They are usually in a nervous twitter during the whole time they are in the jail and when they go out they invariably exclaim: "My goodness! I couldn't be hired to go in there again." One day a young woman went to the Court House and told the Sheriff that she wished to see the jail before she returned home so she could tell the folks all about it. Carman, the Jailer, was sent for and he escorted her inside. He supposed, like most women, who desire to visit the jail, she would be satisfied to go in the hall. That was not sufficient, however. She wanted to see the cells, and that woman wasn't satisfied until she had been shown every cell in the jail on both floors. "I never saw such an inquisitive woman," said the good-natured jailer. "She asked me a hundred questions. Then after she had seen all the cells, she wanted to know where Willet was hung, so I pointed that place out. I had to explain everything about the execution, and at last just as we were about to leave, she looked in my face and said: 'Is the gallows he was hung on, here?' I said, 'no.' 'Well, can't I see Willett's cat?' I said, 'no, I didn't know where the cat was.' As we went out she said 'O! my, I didn't see the dungeon.' Just then I had some business in the Sheriff's office and she left sighing because she hadn't seen it all."

BALL PLAYERS ON THE HOME BASE.

Return of Spaulding's Tourists—Stranger Who Knew the Curves.

A dispatch from New-York to THE FREEMAN to-day stated: The base ball teams have arrived. The men touched *terra firma* at the foot of Twenty-Second-street, North River, at 8 o'clock this morning. The teams came by the steamship Adriatic which was sighted off Fire Island at 1:50 o'clock this morning. The steamer Laura M. Starin, with nearly 200 persons on board, met the Adriatic at Quarantine at 7 o'clock and took the party on board in the midst of tooting of tug boats, dipping of flags and cheers from either shore. The party were driven to the Fifth-Avenue Hotel. During the entire trip not one of the party had suffered from a day's illness and they had travelled nearly 32,000 miles. The All America team is seven games ahead of the Chicagos.

HE PUZZLED THEM.

A dispatch to THE FREEMAN from Baltimore, to-day, stated: Yesterday a big six-footer strolled up to the ball grounds where members of the Baltimore Club were at play. He put on a suit and went in to pitch. The ball players laughed at first, but soon found they could not "hit the stranger." He placed the ball in every conceivable position, and his curves and in and out shoots were remarkable. When he picked up the bat he made the ball and the centre fence come together. His name is George Goetz, and he was born in Green Castle, Pa. Manager Barnie will give him a trial.

Impressive Memorial Services Held in St. Peter's Church, Albany.

Memorial services held in St. Peter's Church, Albany, on Thursday, in memory of the late Captain C. M. Schoonmaker were largely attended and impressive. Dr. Battershall assisted by the Rev. J. Temple conducted the services. FOR THE CARE OF INSANE.

MEETING LOCAL BRANCH STATE CHARITIES AID ASSOCIATION.

Views Expressed by Those Present in Relation to the Care of Patients—Reading Matter for the Poor House—Reports Made, Etc.

A meeting of the Local Branch of the State Charities Aid Association was held in the Court House, Kingston, yesterday afternoon. R. Bernard presided.

Miss Shufeldt, of the Committee on Out-of-Door Relief, stated that no special action had been taken by that Committee.

J. V. Henry Nott, Chairman of the General Committee on Asylum and Poor House, reported that he had made a recent visit to the Ulster County Poor House and Insane Asylum. Silas Saxton was absent, but he was shown over the premises by an attendant. He found everything apparently in good condition. Mr. Nott reported as to his action and address before the Legislative Committee in opposition to Ulster County keeping its own insane, and in favor of the State bill. He said that since his visit to Willard a year ago he had made the subject of the care of insane a study, and though he wished to cast no reflection upon the authorities at the Poor House he had become more convinced than ever that the State should care for its own insane where they could have expert medical treatment and necessarily receive better care than in a County Insane Asylum. "It is a terrible disease, none more terrible, and the best medical care should be given them. Country doctors cannot understand the treatment of insane persons as well as those who have made a life study of the subject."

Louis Bevier called attention to the fact that since 1869, out of 90 patients only three had been discharged by Willard Insane Asylum, whereas, since the County had taken care of its own insane 12 had been practically cured, which spoke volumes in favor of treatment of insane in a home asylum.

Mr. Nott—"They were nearly cured at the State Asylum before they were taken to New-Paltz. The County is merely receiving the benefit of the expert medical treatment at Willard."

Mr. Bevier: "If they were so nearly cured at Willard why were they not discharged? The fact is they were not only not discharged, but it was with the utmost difficulty that the County could get possession of them."

F. A. Westbrook suggested that though everything was not perhaps as perfect as it might be at the County Asylum many improvements would be made, and when the question which should have the care of the insane, County or State, was finally settled, the Association might do much good in supervising, inspecting, etc.

F. J. R. Clarke said the county care of insane in the West where it had been favored was as yet a mere experiment. Affairs there are totally different than in the East. "The whole sentiment of the country seems inclined toward State care, not alone individuals, but the Metropolitan press advocates it. State care is favorable to economy."

Mr. Bevier called attention to the fact that the State bill advocated supervision of smaller numbers, which necessarily would increase the expense, and that specialists claimed that patients would have better care in smaller institutions. He spoke of the crowded condition at Willard, and that as for economy an appropriation of half a million was asked for new buildings.

Mr. Nott spoke of the lack of reading matter at the County Asylum, and the fact that insane patients there had no employment. This was different at Willard, where a systematic course was carried out to benefit their minds and aid to improve their general health.

Mr. Bevier said a recommendation to furnish reading matter for the County Poor House had been made a year ago. The response had been slack.

Mr. Bernard said that Sunday Schools might aid in this matter by turning over some of their old books to the Poor House. He suggested that the matter be put in charge of William Smith, County Secretary of Sunday Schools.

Mr. Clark reported from the Committee appointed to visit the City Alms House: "I visited the Alms House of this City without notification the second week in March. It was my first visit. I was gratified at the appearance of things there. The buildings seem to be clean, and the rooms had been whitewashed from one end to the other. So far as I could tell from a single visit it seemed to be efficiently managed by the Superintendent. There are some things which might be remedied. The sitting room for males is not large enough. The men assemble there in the evening and the room is oftentimes packed with people. The most of them smoke and the room not only becomes thick with tobacco smoke, but it permeates the sleeping rooms and fills the upper floors. This can be remedied by providing a room on the third floor for a sitting room for men. The rooms set aside for persons who are ill are not properly located. This is the fault of the building, and not of the Superintendent."

The Association adjourned to meet the first Friday in May.

THE RECORD OF CITY AMUSEMENTS.

SKETCH OF THE LATE COE F. YOUNG.

Left Home at the Age of Twelve to Seek His Fortune.

[From the Port Jervis Gazette.]

The late Coe F. Young left his home in Sussex County, N. J., at the age of 12 years, baretooted and with no clothes but those he had on his back, to seek his fortune. He tramped into Pike County, and from there to Port Jervis, N. Y., where he struck the towpath of the Delaware & Hudson Canal, which had been recently completed between Honesdale and the Hudson River. He started up the canal, seeking work. He had walked several miles, when he was taken on board a canal boat bound for Honesdale. On the boat was a Scotch emigrant and his family, one member of which was a boy of about the same age as the little barefoot tramp. Between the two boys a warm friendship had grown up by the time the boat reached Honesdale. The emigrant family was bound for the town of Carbondale, which had been called into existence by the coal mines the Canal Company had opened there. The Scotchman was a skilled mechanic and was to go to work in the machine shops at Carbondale. The boy Young remained in Honesdale, where he obtained work on the canal. In a few years he owned a boat of his own, and had attracted the attention of Russell F. Lord, General Superintendent of the Canal, who subsequently married Miss Scott, the sister of the present mistress of the White House, Mrs. Harrison. Young made money on the canal, and was finally placed at the head of the freight department of the Canal Company. His advancement was rapid, and on the retirement of Superintendent Lord he was made General Superintendent.

The Scotch boy, whose acquaintance Young had made on the canal boat, became a mule driver in the mines at Carbondale, but was subsequently advanced owing to his remarkable intelligence and ability, until he became President of the Company and one of the railroad magnates of the country. His name was Thomas Dickson. Soon after he became President of the Company Coe Young was made General Manager and Vice President. It was through the sagacity and efforts of those two that the Canal Company obtained control of the gigantic railroad system of Central and Northern New-York, which it now owns. Thomas Dickson died a few years ago. Vice-President Young declined the office thus made vacant and subsequently retired from the management of the Company, his eldest son being appointed to his place. Mr. Young died one of the wealthiest men in Northern Pennsylvania. He married, while in charge of the Canal Company's freight department, the sister of Thomas Cornell, millionaire Hudson River steamboat owner. A daughter of Mr. Young married a son of Thomas Dickson.

SALE OF "ALBANY JOURNAL" STOCK.

Members of Editorial Staff Who Were Kindly Remembered.

A dispatch from Albany to THE FREEMAN to-day stated: The *Albany Journal* to-day makes official announcement of the sale of the control of a majority of its stock by William J. Arkell to William Barnes, Jr., of this City. The transfer took place to-day. The *Journal* was bought just five years ago by Mr. Arkell at the rate of $140,000 for all of its stock. The selling price, it is understood, is at the rate of $175,000, for the entire capital. Mr. Arkell says that he makes the sale because the paper falls in the hands of a trustworthy Republican, a grandson of Thurlow Weed, the first editor and real founder of the paper, but principally because the growth of the business of *Judge* and the recent purchase of *Frank Leslie's Weekly* make it imperative that he should devote his entire personal attention to the care of these large properties. John A. Sleicher, the editor-in-chief of the *Journal*, will remain with the *Journal* during the coming week and then will be identified with Mr. Arkell in the management of *Frank Leslie*. Before leaving the *Journal* office to-day Mr. Arkell called together all the members of the editorial staff and heads of the departments on the paper and presented to each one a handsome check as a parting token of esteem. Those who had been with him during the entire five years of his management received the largest amounts and all who had been in his service for a year were generously remembered.

Dainty Easter Songs.

[From the Albany Argus.]

There have just been issued three beautiful little Easter booklets, "Dawn; The Easter Gift;" "Easter Song, [Robin's and Mine];" and "Easter Morn [Mary Magdalene]" by Mary Westbrook. The author, although a Kingston lady, is well known in this City. She is a sister of the late Judge Westbrook, and that she possesses grace and delicacy as a writer has been proven by other little books similar to the above, issued in previous years. These poems breathe a reverent spirit, and will appeal to all who have poetic sensibilities.

Rhinebeck's Wail.

[From the Rhinebeck Gazette.]

The stone crusher has been a better investment for Rhinebeck than the Town Hall, which cost $20,000 at the outset and hardly pays for repairs. About seven crushers might have been bought for what was sunk in the Hall, and the cost of two with the balance of the $20,000 wisely put into road work, would have been of incalculable benefit to the town. That is the way voters miss it by not attending to public affairs. Only 366 persons voted on the question, and some 600 didn't vote at all.

An Old Lady's Logic.

[From the Gilboa Monitor.]

One night an old lady from the country slept in the house of a friend. Her bed was a hard mattress. Next morning she was asked how she slept. "Not very well, for my old bones are sore with that hard bed of yours." "But all the great physicians say it is healthier to sleep on beds as hard as a board." "Oh, then I suppose that's what you town folks call 'Board of Health.'"

Frederick T. Roberts, M. D., Physician to and Professor of Clinical Medicine at University College Hospital, London, Eng., says: "Bright's Disease has no symptoms of its own, and may long exist without the knowledge of the patient or the practitioner, as no pain will be felt in the kidneys or that vicinity." This accounts for many people dying with Bright's Disease, or advanced kidney malady. The disease is not suspected until it reaches a fatal period. If Warner's Safe Cure is used at the proper time, the fatality from that terrible disease would be greatly decreased. Dr. Thompson also says: "More adults are carried off in this country by chronic kidney disease than by any other one malady except consumption."

METHODIST CONFERENCE

NOW IN SESSION IN THE ELIZABETH-STREET CHURCH, N. Y.

Committees Appointed and Trustees Elected—Reports of Presiding Elders—Examination of Candidates—Collections—In the Portal.

J. H. Lane, of West Stockbridge, Mass., who is well known in this City, is in New-York attending the M. E. Conference, which is in session in that City. He writes to THE FREEMAN as follows:

YESTERDAY'S PROCEEDINGS.

At the opening of the New-York M. E. Conference, yesterday, committees were appointed on Deaconesses, Conference Chronology and Chaplains of the United States Navy.

The Revs. Messrs. E. S. Osbon, D. D., R. H. Travis and John S. McClain were elected Trustees for the Conference.

The Rev. J. M. King, D. D., introduced a paper, "Protesting against the passage of bill No. 894, now before the Assembly, as diverting the public school funds for sectarian purposes," which by a rising vote, was unanimously ordered forwarded.

The Bishop called for the report of the Poughkeepsie District, which was made by the Rev. S. I. Ferguson in place of Dr. G. S. Hare, deceased.

The Rev. W. A. Dalton, of Pleasant Valley, withdrew from the Conference and returned his ordination papers.

The Rev. F. J. Belcher, P. E., of the Newburgh District reported: "The work is in a prosperous condition. Revivals have prevailed in 42 of the charges. New churches had been built at Downsville and Long Eddy, and repairs made at several other places in the District. The missionary collections were larger than in any previous year."

The Rev. Alfred Coons, P. E., of the Kingston District, presented his report. He said that revivals had prevailed in the District which had resulted in 1,600 conversions. The benevolent collections, the Presiding Elder stated, were in advance of last year. He favorably alluded to the new Parsonage of St. James Church, Kingston.

The Rev. E. L. Allen was reported as transferred, and the Rev. L. S. Brown as taking a superannuated relation.

The Rev. M. C. Crawford offered a resolution touching the action taken by the Board of Trustees of the Eighteenth-Street M. E. Church, who for two years past have refused to pay the interest of what is known as the "Depeyster Legacy," to the Conference on the ground they have no right so to do. The resolution was adopted.

Professor W. N. Rice, Ph. D., of Wesleyan University, and Professor A. H. Flack, of the Claverack College, addressed the Conference.

The examination of candidates for Orders was taken up, and the following advanced: T. H. W. Baragwaneth, D. W. B. Thompson, W. F. Albrecht, J. W. Burkins, G. W. Thompson, R. Kikelhan, V. D. Mattice, T. R. Sweetmen, S. H. Scott, A. L. Shear, W. R. Evans, C. H. Snedeker, W. F. Anderson, O. H. Harpendon, F. C. Summers, A. M. Griffin, W. A. Fuller, Elmer E. Count, D. W. Howell, Ambrose Quick, H. M. Mace and G. F. Starks.

This large class was elected to Deacons' or Elders' Orders.

According to a report made the following collections for missions were taken:

New-York District	$30,853
Poughkeepsie District	3,205
Newburgh District	6,800
Kingston District	3,918

This is an increase of $1,598 over the last year's collections.

TO-DAY'S DOINGS.

A dispatch from New-York to THE FREEMAN to-day stated: The Methodist Conference to-day adopted a resolution condemning as injurious and sinful the practice of raising money in churches by fairs, festivals, suppers and pleasure parties. VISITORS TO THE ULSTER CO. JAIL.

One Young Woman who Wanted to See and Know All.

There are many visitors to the Ulster County Jail in Kingston. The most of the visits are made to satisfy curiosity. Country people who come to Kingston like to visit the jail as one of the sights of the place. Now and then a party of women ask the Jailer to allow them to take a look inside. They are usually in a nervous twitter during the whole time they are in the jail and when they go out they invariably exclaim: "My goodness! I couldn't be hired to go in there again." One day a young woman went to the Court House and told the Sheriff that she wished to see the jail before she returned home so she could tell the folks all about it. Carman, the Jailer, was sent for and he escorted her inside. He supposed, like most women, who desire to visit the jail, she would be satisfied to go in the hall. That was not sufficient, however. She wanted to see the cells, and that woman wasn't satisfied until she had been shown every cell in the jail on both floors. "I never saw such an inquisitive woman," said the good-natured jailer. "She asked me a hundred questions. Then after she had seen all the cells, she wanted to know where Willet was hung, so I pointed that place out. I had to explain everything about the execution, and at last just as we were about to leave, she looked in my face and said: 'Is the gallows he was hung on, here?' I said, 'no.' 'Well, can't I see Willett's cat?' I said, 'no, I didn't know where the cat was.' As we went out she said 'O! my, I didn't see the dungeon.' Just then I had some business in the Sheriff's office and she left sighing because she hadn't seen it all."

BALL PLAYERS ON THE HOME BASE.

Return of Spaulding's Tourists—Stranger Who Knew the Curves.

A dispatch from New-York to THE FREEMAN to-day stated: The base ball teams have arrived. The men touched *terra firma* at the the foot of Twenty-Second-street, North River, at 8 o'clock this morning. The teams came by the steamship Adriatic which was sighted off Fire Island at 1:50 o'clock this morning. The steamer Laura M. Starin, with nearly 200 persons on board, met the Adriatic at Quarantine at 7 o'clock and took the party on board in the midst of tooting of tug boats, dipping of flags and cheers from either shore. The party were driven to the Fifth-Avenue Hotel. During the entire trip not one of the party had suffered from a day's illness and they had travelled nearly 32,000 miles. The All America team is seven games ahead of the Chicagos.

HE PUZZLED THEM.

A dispatch to THE FREEMAN from Baltimore, to-day, stated: Yesterday a big six-footer strolled up to the ball grounds where members of the Baltimore Club were at play. He put on a suit and went in to pitch. The ball players laughed at first, but soon found they could not "hit the stranger." He placed the ball in every conceivable position, and his curves and in and out shoots were remarkable. When he picked up the bat he made the ball and the centre fence come together. His name is George Goetz, and he was born in Green Castle, Pa. Manager Barnie will give him a trial.

MEMORY OF CAPTAIN SCHOONMAKER.

Impressive Memorial Services Held in St. Peter's Church, Albany.

Memorial services held in St. Peter's Church, Albany, on Thursday, in memory of the late Captain C. M. Schoonmaker were largely attended and impressive. Mrs. Schoonmaker, her daughters and other relatives of the deceased were present. The pupils of St. Agnes' School, which Captain Schoonmaker's daughters attend, were present in a body. The Rev. Dr. Battershall assisted by the Rev. J. Temple conducted the services. The music selected by Mrs. Schoonmaker, included the chant, "Lord, Let Me Know My End;" the "De Profundis," and the hymn "Thy Will be Done." The Rev. Dr. Battershall eloquently eulogized the deceased. The committal service was recited after the eulogy. This is the second memorial service of the kind in the history St. Peter's parish, the first being that of the late Judge Rufus W. Peckham and wife, who lost their lives on the ill-fated steamer Ville de Paris.

FOR THE CARE OF INSANE.

MEETING LOCAL BRANCH STATE CHARITIES AID ASSOCIATION.

Views Expressed by Those Present in Relation to the Care of Patients—Reading Matter for the Poor House—Reports Made, Etc.

A meeting of the Local Branch of the State Charities Aid Association was held in the Court House, Kingston, yesterday afternoon. R. Bernard presided.

Miss Shufeldt, of the Committee on Out-of-Door Relief, stated that no special action had been taken by that Committee.

J. V. Henry Nott, Chairman of the General Committee on Asylum and Poor House, reported that he had made a recent visit to the Ulster County Poor House and Insane Asylum. Silas Saxton was absent, but he was shown over the premises by an attendant. He found everything apparently in good condition. Mr. Nott reported as to his action and address before the Legislative Committee in opposition to Ulster County keeping its own insane, and in favor of the State bill. He said that since his visit to Willard a year ago he had made the subject of the care of insane a study, and though he wished to cast no reflection upon the authorities at the Poor House he had become more convinced than ever that the State should care for its own insane where they could have expert medical treatment and necessarily receive better care than in a County Insane Asylum. "It is a terrible disease, none more terrible, and the best medical care should be given them. Country doctors cannot understand the treatment of insane persons as well as those who have made a life study of the subject."

Louis Bevier called attention to the fact that since 1869, out of 90 patients only three had been discharged by Willard Insane Asylum, whereas, since the County had taken care of its own insane 12 had been practically cured, which spoke volumes in favor of treatment of insane in a home asylum.

Mr. Nott—"They were nearly cured at the State Asylum before they were taken to New-Paltz. The County is merely receiving the benefit of the expert medical treatment at Willard."

Mr. Bevier: "If they were so nearly cured at Willard why were they not discharged? The fact is they were not only not discharged, but it was with the utmost difficulty that the County could get possession of them."

F. A. Westbrook suggested that though everything was not perhaps as perfect as it might be at the County Asylum many improvements would be made, and when the question which should have the care of the insane, County or State, was finally settled, the Association might do much good in supervising, inspecting, etc.

F. J. R. Clarke said the county care of insane in the West where it had been favored was as yet a mere experiment. Affairs there are totally different than in the East. "The whole sentiment of the country seems inclined toward State care, not alone individuals, but the Metropolitan press advocates it. State care is favorable to economy."

Mr. Bevier called attention to the fact that the State bill advocated supervision of smaller numbers, which necessarily would increase the expense, and that specialists claimed that patients would have better care in smaller institutions. He spoke of the crowded condition at Willard, and that as for economy an appropriation of half a million was asked for new buildings.

Mr. Nott spoke of the lack of reading matter at the County Asylum, and the fact that insane patients there had no employment. This was different at Willard, where a systematic course was carried out to benefit their minds and aid to improve their general health.

Mr. Bevier said a recommendation to furnish reading matter for the County Poor House had been made a year ago. The response had been slack.

Mr. Bernard said that Sunday Schools might aid in this matter by turning over some of their old books to the Poor House. He suggested that the matter be put in charge of William Smith, County Secretary of Sunday Schools.

Mr. Clark reported from the Committee appointed to visit the City Alms House: "I visited the Alms House of this City without notification the second week in March. It was my first visit. I was gratified at the appearance of things there. The buildings seem to be clean, and the rooms had been whitewashed from one end to the other. So far as I could tell from a single visit it seemed to be efficiently managed by the Superintendent. There are some things which might be remedied. The sitting room for males is not large enough. The men assemble there in the evening and the room is oftentimes packed with people. The most of them smoke and the room not only becomes thick with tobacco smoke, but it permeates the sleeping rooms and fills the upper floors. This can be remedied by providing a room on the third floor for a sitting room for men. The rooms set aside for persons who are ill are not properly located. This is the fault of the building, and not of the Superintendent."

The Association adjourned to meet the first Friday in May.

THE RECORD OF CITY AMUSEMENTS.

For Benefit of Industrial Home—Adams & Cook's Dramatic Company.

On Thursday evening, April 11, Newton Beers' "Lost in London" Company, will appear in Kingston Opera House. This company has received many flattering press notices. The play is full of spectacular features.

Mrs. Scott Siddons will give an evening of dramatic recital in Kingston Opera House, on Monday, April 15. She is a reader of such ability and reputation as to need no word of comment to secure a large audience. The proceeds of the entertainment are for the benefit of the Industrial Home, of this City.

In Liscomb's Opera House, Rondout, on Monday evening, the Adams & Cook Dramatic Company will open a week's engagement. Thomas E. Shea, who sustains the leading male parts, is said to be a young actor of ability, and he is supported by a strong company. The play on Monday evening will be "Monte Cristo," to be followed the remainder of the week by other popular plays.

Recent Deaths.

The Rev. Edward A. VanKleeck died at the Vassar Hospital, Poughkeepsie, on Thursday.

Mrs. Rachel Oes, wife of Philip Oes, of Fly Mountain, Ulster County, died yesterday, aged 54 years. She was a member of the Spring-Street Lutheran Church, Rondout.

The remains of the late Alexander Parsell, who died in Kyserike, Thursday, were brought to Port-Ewen yesterday. The funeral will take place to-morrow forenoon from the Port-Ewen Reformed Church.

Industrial.

The floating elevators used on the "Island Docks" of the Delaware & Hudson Canal Company here have a capacity for "elevating" 600 tons of coal per day.

Among the first brick manufacturers along the Hudson River to cease operations last fall was Frank Fredericks, at Steep Rocks. Mr. Fredericks will be the first to resume work this spring. He expects to begin making brick on Monday. To-day the barge Kittie Fredericks was being laden at his yard.

March of Improvements.

H. D. Darrow, of Kingston, is tearing down two small buildings adjoining the Silas H. Davis property on Wall-street.

An old structure on Union-avenue between Abeel and Union-streets, Rondout, is being torn down. A new building will be erected on the site.

Promised for Sunday:

Rain or snow, slightly cooler, northwesterly winds.

SKETCH OF THE LATE COE F. YOUNG.

Left Home at the Age of Twelve to Seek His Fortune.

[From the Port Jervis Gazette.]

The late Coe F. Young left his home in Sussex County, N. J., at the age of 12 years, baretooted and with no clothes but those he had on his back, to seek his tortune. He tramped into Pike County, and from there to Port Jervis, N. Y., where he struck the tow-path of the Delaware & Hudson Canal, which had been recently completed between Honesdale and the Hudson River. He started up the canal, seeking work. He had walked several miles, when he was taken on board a canal boat bound for Honesdale. On the boat was a Scotch emigrant and his family, one member of which was a boy of about the same age as the little barefoot tramp. Between the two boys a warm friendship had grown up by the time the boat reached Honesdale. The emigrant family was bound for the town of Carbondale, which had been called into existence by the coal mines the Canal Company had opened there. The Scotchman was a skilled mechanic and was to go to work in the machine shops at Carbondale. The boy Young remained in Honesdale, where he obtained work on the canal. In a few years he owned a boat of his own, and had attracted the attention of Russell F. Lord, General Superintendent of the Canal, who subsequently married Miss Scott, the sister of the present mistress of the White House, Mrs. Harrison. Young made money on the canal, and was finally placed at the head of the freight department of the Canal Company. His advancement was rapid, and on the retirement of Superintendent Lord he was made General Superintendent.

The Scotch boy, whose acquaintance Young had made on the canal boat, became a mule driver in the mines at Carbondale, but was subsequently advanced owing to his remarkable intelligence and ability, until he became President of the Company and one of the railroad magnates of the country. His name was Thomas Dickson. Soon after he became President of the Company Coe Young was made General Manager and Vice President. It was through the sagacity and efforts of those two that the Canal Company obtained control of the gigantic railroad system of Central and Northern New-York, which it now owns. Thomas Dickson died a few years ago. Vice-President Young declined the office thus made vacant and subsequently retired from the management of the Company, his eldest son being appointed to his place. Mr. Young died one of the wealthiest men in Northern Pennsylvania. He married, while in charge of the Canal Company's freight department, the sister of Thomas Cornell, millionaire Hudson River steamboat owner. A daughter of Mr. Young married a son of Thomas Dickson.

SALE OF "ALBANY JOURNAL" STOCK.

Members of Editorial Staff Who Were Kindly Remembered.

A dispatch from Albany to THE FREEMAN to-day stated: The *Albany Journal* to-day makes official announcement of the sale of the control of a majority of its stock by William J. Arkell to William Barnes, Jr., of this City. The transfer took place to-day. The *Journal* was bought just five years ago by Mr. Arkell at the rate of $140,000 for all of its stock. The selling price, it is understood, is at the rate of $175,000, for the entire capital. Mr. Arkell says that he makes the sale because the paper falls in the hands of a trustworthy Republican, a grandson of Thurlow Weed, the first editor and real founder of the paper, but principally because the growth of the business of *Judge* and the recent purchase of *Frank Leslie's Weekly* make it imperative that he should devote his entire personal attention to the care of these large properties. John A. Sleicher, the editor-in-chief of the *Journal*, will remain with the *Journal* during the coming week and then will be identified with Mr. Arkell in the management of *Frank Leslie*. Before leaving the *Journal* office to-day Mr. Arkell called together all the members of the editorial staff and heads of the departments on the paper and presented to each one a handsome check as a parting token of esteem. Those who had been with him during the entire five years of his management received the largest amounts and all who had been in his service for a year were generously remembered.

The seven-months'-old papoose of the Indian Chief Break-o'-Day buried at Potters Hollow, Schoharie County, will be removed West by the tribe next summer.

Dainty Easter Songs.

[From the Albany Argus.]

There have just been issued three beautiful little Easter booklets, "Dawn; The Easter Gift;" "Easter Song, [Robin's and Mine];" and "Easter Morn [Mary Magdalene]" by Mary Westbrook. The author, although a Kingston lady, is well known in this City. She is a sister of the late Judge Westbrook, and that she possesses grace and delicacy as a writer has been proven by other little books similar to the above, issued in previous years. These poems breathe a reverent spirit, and will appeal to all who have poetic sensibilities.

Rhinebeck's Wail.

[From the Rhinebeck Gazette.]

The stone crusher has been a better investment for Rhinebeck than the Town Hall, which cost $20,000 at the outset and hardly pays for repairs. About seven crushers might have been bought for what was sunk in the Hall, and the cost of two with the balance of the $20,000 wisely put into road work, would have been of incalculable benefit to the town, That is the way voters miss it by not attending to public affairs. Only 366 persons voted on the question, and some 600 didn't vote at all.

Piscatorial.

Small fish are being caught near the dam at Eddyville by anglers.

Kingston Point fishermen have begun to make "drifts" for shad.

It is said that there are as many bones in a shad this year as there were last season.

It is expected that many salmon will be caught in the Hudson River the coming summer.

George Hornbeck, of Port Jervis, caught a trout one day this week that measured 27 inches in length.

Came All of a Sudden.

[From the Windham Journal.]

Winter, all of a sudden, came down ker flap into the lap of gentle spring. Saturday and Sunday morning the ground was whitened with snow. Sunday blue birds were wearing fur collars, wristlets and gloves and robins needed a seal skin sacque.

There arrived at tide-water, at Eddyville, yesterday, 45 Delaware & Hudson Canal boats, laden with 5,850 tons of coal.

The whistle of the steamboat James W. Baldwin was blown at the mouth of the Rondout Creek, last night, at 10:40 o'clock.

To-night the propeller J. H. Cordts and steamboat Oswego will take a tow from the Port of Rondout to New-York. It will be the Oswego's first trip for the season.

The following vessels reported for cargoes of coal at the Rondout Department of the Delaware & Hudson Canal Company to-day: Schooners E. Diverty, 300 tons; N. Cummings, 50; barge M. A. Cawley, 290.

When the propeller J. H. Cordts left New-York, last night, the following craft were reported in its tow: Ice barge Clark, to Castleton; barge Heath, Box No. 57, to Rondout; boats J. G. Freeman, to Coeymans; N. S. Cox, to Highland; G. H. VanWagonen, and Delaware & Hudson Canal boats, to Rondout; James R. Compton, to Albany.

An Old Lady's Logic.

[From the Gilboa Monitor.]

One night an old lady from the country slept in the house of a friend. Her bed was a hard mattress. Next morning she was asked how she slept. "Not very well, for my old bones are sore with that hard bed of yours." "But all the great physicians say it is healthier to sleep on beds as hard as a board." "Oh, then I suppose that's what you town folks call 'Board of Health.'"

South-Rondout.

On Sunday night a Gospel temperance meeting will be held in the chapel here and on Monday night, at 7:30 o'clock, Jonah Boughton will deliver a lecture on "The Protection of the Home Against the Saloon Influence."

Frederick T. Roberts, M. D., Physician to and Professor of Clinical Medicine at University College Hospital, London, Eng., says: "Bright's Disease has no symptoms of its own, and may long exist without the knowledge of the patient or the practitioner, as no pain will be felt in the kidneys or that vicinity." This accounts for many people dying with Bright's Disease, or advanced kidney malady. The disease is not suspected until it reaches a fatal period. If Warner's Safe Cure is used at the proper time, the fatality from that terrible disease would be greatly decreased. Dr. Thompson also says: "More adults are carried off in this country by chronic kidney disease than by any other one malady except consumption."

NOTES ON NEWS OF THE DAY.

THE Boston *Globe* has made a canvass of the state of Massachusetts, and claims to have discovered that the state will cast a majority of 3,500 against prohibition. The anti prohibition majority in Boston is estimated at 10,000.

THE election of a Senator and Representative in Fosier, R. I., yesterday resulted in favor of the Republicans, and raised their forces in the Legislature to a tie on joint ballot. There are fourteen more postponed elections to take place.

PRESIDENT HARRISON is reported to be badly worn out by the tremendous strain of the past five weeks, and contemplates a short vacation outside of Washington. A trip to Fort Monroe is suggested ,but no definite arrangements have been made.

WILLIAM M. IVINS has resigned the office of Chamberlain of New York and gone to Brazil. His accounts are all straight. The salary of the office is $25,000 a year, but Ivins gave it up in the hope of recovering his health. It is a big prize that some Tammany Democrat is likely to get.

MAGGIE MITCHELL, the actress, has obtained a divorce from Henry T. Paddock, and is free to marry again. Maggie supported Paddock upon her earnings, and while she pursued her profession he "passed his days in riot most uncouth." She has got rid of an incumbrance.

THE New York *Sun* says of Joel B. Erhardt, the new Collector: "There is no fitter Republican, none higher toned, none more capable in affairs, none more deserving of promotion at the hands of his party." And it also says that "Cornelius Van Cott will make a tip top Postmaster. There's no Mugwump in him." The *Sun* knows both men.

ANOTHER great river in Africa, called the Zomani, has been discovered and explored for the distance of 503 miles from its confluence with the Congo. It forms a direct and open route to Lake Tanganyika in the heart of the Ethiopian region, and is navigable with a good current all the way. Thanks to Livingstone and Stanley, the mysteries of the Dark Continent are coming rapidly into the light.

THE Illinois Legislature is considering the establishment of a binding twine plant in the state prison at Joliet. The binding twine trust has become such a monopoly that the Illinois farmers will be glad if the convicts can be employed to break it up. If the experiment succeeds, other big trusts may be leveled at in the same way—the whisky and Standard Oil trusts for instance.

THE wine harvest of France amounted last year to 797,707,000 gallons, an increase over 1887 of 151,874,000 gallons. This good result is attributed to the introduction of American vines, upon which French vines were grafted. Most of these vines came into full bearing last year, and their success has created a demand for American vines much beyond the present ability to supply. The phylloxera does not attack the American vines.

HON. ELLIS H. ROBERTS of the Utica *Herald* decided yesterday to accept the Assistant Treasurership at New York. He expects to prepare his bond and be ready to enter upon his duties by the 15th inst. All the intervening time will be required for counting the money in the vaults. Though ex-Judge McCue is dead, his bondsmen are held responsible till the count is finished. The office is in charge of United States Treasurer Hyatt.

ED. MURPHY'S Troy gang of Hill Democrats went over to Cohoes yesterday to wrest the control of the Democratic primaries from the Herrick men. After fatally injuring two men and badly hurting four more they won a partial victory. The story is told in a *Tribune* dispatch which we print elsewhere. Cohoes is only five miles from Albany, and it is surprising that Commander-in-Chief Hill did not order a detachment of state troops to put down the riot.

THE President issued a proclamation yesterday afternoon, recommending that an hour beginning at 9 A. M., be set apart on Tuesday, the 30th inst., for public worship, that the people of the entire country may "implore the favor of God that the blessings of liberty, prosperity and peace may abide with us as a people, and that his hand may lead us in the paths of righteousness and good deeds." The day had already been declared a general holiday by Congress, in honor of George Washington's inauguration as the first President.

MISS ROSE MORROW was nominated for School Trustee in Belvidere, N. J. The local politicians were disgusted, and the clerk of the school board tried to break up the election by staying away from the polls. This did not daunt the plucky woman, who promptly called the meeting to order and proceeded with the election. Her tact and courage won the the admiration of the voters, and she was elected trustee almost without opposition. The absence of the clerk made it necessary to fill that office also, and she was elected to it unanimously. Miss Morrow has the elements of the successful politician.

BELLE MAJOR took poison and died at St. Johnsbury, Vt., last Wednesday night. Several years ago Miss Major became engaged to George Hidden, but he suddenly broke the contract and married another girl. Two years ago this wife died, when Hidden renewed his attentions to Miss Major and a second engagement resulted. When all the arrangements for the marriage were completed and trousseau and bridal veil bought, he broke off the engagement as suddenly as before. Then the deserted girl went to bed, swallowed a dose of poison, and was found dead the next morning. A letter marked "not to be opened until I am dead," explained the cause of the act. If Hidden were living in some wild Western state he would find it prudent to remain hidden. He is one of the scoundrels for whose neck Judge Lynch has a strong affinity.

PLOT TO SHOOT PRINCE OF WALES.

What an Anonymous Letter to Mayor of Leicester Contained.

By Cable to The Freeman.

LONDON, April 6.—The Mayor of Leicester received an anonymous letter warning him that a plot had been arranged to shoot the Prince of Wales when he attended the race meeting there, to-day. Though the authorities placed but little credence in the statement of the writer of the letter, they took every precaution to ensure the safety of his Royal Highness. However, nothing whatever of an untoward nature has taken place at the races.

POSTAL CONVENTIONS SUCCESSFUL.

The Post Office Department May Continue Making Them in Future.

By Telegraph to The Freeman.

NEW-YORK, April 6.—A Washington dispatch to the *Post* says it will be the policy of the Post-Office Department to continue the plan of making postal conventions with the countries of the American continent. The success of these conventions has been quite as great as was expected. The quarterly returns already received, show that during the present calendar year the United States will send to Mexico in packages, through the parcel post, merchandise of the value of $2,000,000. This is one-quarter of the value of the merchandise sent from the United States to Mexico during the last fiscal year, excluding within the term merchandise what may be called the merchandise of the stores. The delay on the border, which was caused by the inexperience of the custom's officials when the system was first established, no longer exists. The Mexican Government is very much pleased with the result of the convention. Several other conventions will probably be concluded in the next 30 days.

THE SITUATION GROWING SERIOUS.

Riot Caused by the Street Car Strike in Rochester To-Day.

By Telegraph to The Freeman.

ROCHESTER, N. Y., April 6.—The street car strike situation is growing rather serious, a small riot having occurred on East-Main-street, at noon, to-day. A large crowd of men, most of them factory hands, who were taking their nooning, gathered at the corner of St. Paul and Main-streets and indulged in disorderly actions. Mud and stones were thrown and a number of car windows were broken. About 1 o'clock some one hit a "scab" driver on the right ear with a brick, cutting his head and causing him to lose his composure. He drew a revolver, fired into the roadway directly beneath his feet, jumped from his car and ran, pursued by about 200 men and boys. He escaped from them. The police finally dispersed the mob after arresting about 25 men. William Toner, a New-York man, who came here to take a car, was arrested this morning while flourishing a revolver in the Central depot.

SUIT MAY BE INSTITUTED.

By Telegraph to The Freeman.

WASHINGTON, April 6.—The Secretary of the Interior has requested the Attorney General to cause suit to be instituted to recover title to the lands known as the Des Moines River lands, in Iowa, provided the Attorney General, after examination, is of the opinion that such suit could be maintained and that such action would be to the interests of the Government.

THEY EXPECT RELIEF FROM CONGRESS.

Seventeen of the Iowa River Land Settlers Were Arrested Yesterday.

By Telegraph to The Freeman.

FORT DODGE, Ia., April 6.—Sheriff Adams and a deputy yesterday arrested 17 River land settlers charged with conspiracy. The farmers, who had defied the United States officials, peaceably accompaneid the officers, whom they regarded as friends. They were arraigned in a Justice's Court, and waving examination were each placed under $300 bonds for appearance at the May term of Court. The settlers announce their intention to secure a postponement of the trial and continue their policy, until Congress takes definite action. They hope to obtain certain relief from the next Congress and thus evade fine and imprisonment. United States Marshals who have been forced to suspend operations, will not resume evictions until they can do so with largely increased forces. The land-owners announce that evictions will be made if it takes the State Militia.

VICTIM OF THE WEATHER.

James I. Christie, Acting Assistant Doorkeeper of the Senate, died this morning. His death adds another name to the long list of victims of the Inauguration weather, for his friends say that from the cold contracted during the open-air ceremonies of that day he never recovered. He was in attendance upon the Senate when it adjourned *sine die* last Tuesday, although not feeling well, and took to his bed on the following day, suffering from congestion of the lungs. He served in the Senate in various capacities for 28 years. He was first appointed as a page. The position he held when he died was created for him in 1872 on motion of Senator Conkling.

By Telegraph to The Freeman.

NEW-YORK, April 6.—A reporter called on Joel B. Erhardt, last night, and asked whether he would accept the Collectorship of the Port, to which he had been appointed. Mr. Erhardt said: "I may as well own up at once, I suppose I shall accept the honor."

"Can you say when you will take up the reins of office?"

"Not exactly. There is a little matter of a bond to be thought of, and I presume there is no great hurry. Mr. Magone is still in office, and needs no assistance, but I presume I shall call on him within a day or two and get the hang of the meeting house."

"And what can we say about the policy of the new Collector?"

"Only this, that the office will be run for the best interests of the country, according to the best of my ability."

"With an eye single to the Administration?" queried the reporter.

"With both eyes on the Administration," answered Mr. Erhardt, "not forgetting, however, that the eyes of the Administration will doubtless be on me at the same time."

"To whom do you think you owe your appointment, Mr. Erhardt?" he was asked.

"I have an idea that it is to President Harrison," said he with a merry twinkle in his eye.

NOW! IN THE SPRING OF THE YEAR.

During winter, nature wisely arranges that we should live on foods containing much fat, or, as they are known, hydrocarbons, for the purpose of supplying heat to the body; the chemicle operation necessary to transform fat into heat is the exclusive work of the liver, and so during the time stated it is constantly congested.

With the approach of warm weather our diet changes to muscle-producing food, and the work of the liver is much lessened. In the majority of cases, however, it is unable to completely throw off the excess of bile, but remains congested, causing that lazy, tired feeling which many have in the Spring months, when the weather becomes warm.

This is evidence of an unhealthy condition, and though people appreciate the necessity of an alterative at this period, the common idea is to take drastic pills and produce a cathartic effect, only to make matters worse. The liver must be unloaded, and its proper action restored before hot weather, if you wish to preserve health, and if this distinct call of nature is unheeded serious results will occur.

The blood will become loaded with bile and lithic acid, and as every drop of vital fluid passes through the kidneys to be purified, they soon break down and are unable to carry out the deadly poison. Warner's Safe Cure and Warner's Safe Pills have not only a specific action on the kidneys, but on the liver also.

They thin the thickened bile so that it will pass cut through its ducts, enable the glands to unload themselves, act as a solvent on all biliary acids and in a word, fit these great organs for the season's work, preventing blood poisoning, inflammation, abscess, and all affections to which they are so liable.

As you value the bessings of health, do not allow the summer to approach without giving your system "a geneal house-cleaning," in the manner we have indicated.

"To be forewarned is to be forearmed."

WASHINGTON, April 6. — *Indications for Sunday: Rain or snow, slightly cooler, northeasterly winds.*

DEMOCRAT AND MUGWUMP.

Collector Magone, Democrat, remained in charge of the New York Custom House until President Harrison had time to set his administration in good working order, and then went to Washington and delivered his resignation in person. He actually wanted to be relieved, though his commission had not expired. As a party man, he realized the necessity of harmony between the administration at Washington and the subordinate officials in charge of important trusts. He realized also that the anticipation of early discharge was a temptation to dishonest employes to commit depredations for which he would be held responsible. He had been a Democrat in office, and had used the place for all it was worth as a party machine. But he accepts defeat in a manly fashion and takes himself out of the way at the precise moment when the President is ready to name his successor.

Postmaster Pearson is a Mugwump. He was retained in office at the demand of those reformers who went over to the Democracy in 1884 on a pretense of dissatisfaction with the Republican candidates. This one concession to Mugwump demands kept them faithful to Mr. Cleveland for four years, and when the Republicans nominated a candidate against whom no objection could be raised, they shifted their ground to free trade. Since the election, however, having no further use for Mr. Cleveland, they have discovered a profound admiration for Gen. Harrison. They have intimated that he could have their support without reserve or qualification if Postmaster Pierson was retained. They have encouraged Mr. Pierson to cling to his office in the hope that their pleadings and demands would prevail. He could not believe until yesterday that he was to be susperceded. When a *Tribune* reporter called upon him yesterday and informed him of Mr. Van Cott's appointment his utterance was so choked by emotion that he could scarcely speak. "He had received no official notice that his services were no longer required nor any intimation that he was to be removed. No specific arrangements for the future had been made by him. He had been in the Postoffice Department nearly all his life, having entered as a clerk when a young man, and had always done, he said, what according to his judgment was for the best interests of the service. If it was thought that the service would be improved by his retirement he ought not to complain." Mr. Pierson was apparently broken down by the news. He had evidently believed up to the last moment that he was to be retained, though he played the offensive partisan in Democratic behalf in the most flagrant manner at several elections.

There may be a difference of opinion as to whether the conduct of Magone or of Pierson is the more worthy of commendation. Mr. Magone has done something to confirm and strengthen the old Democratic doctrine that "to the victors belong the spoils," by his turning over the office to a Republican. But did not Mr. Pierson practically affirm this doctrine when he deprived a large number of Republican letter carriers of their votes by keeping them employed at points distant from their voting places on election day? Mr. Magone has no further use for his office because he cannot make it of service to his party. Mr. Pierson has so much use of his office for himself that there could be no doubt of his devoted Republicanism during the next four years if he were permitted to retain it. He is succeeded by a man who is first, last and always a Republican. Whether the Democratic way or the Mugwump way is the more worthy of praise, it strikes us that the President's action is indicative of the presence of a Republican administration at Washington.

PRISON LABOR.

Senator Fassett's prison bill contains more practical common sense on the labor question than any other measure that we have seen. After providing for a codification of existing prison laws, it proceeds to the main subject.

First, it gives an opportunity to the prisoner for reform, by sentencing him for an indefinite time between the maximum and minimum limits fixed by law. When the minimum limit is reached he may make application for discharge or release on parole, whereupon he shall be examined by a board established for the purpose. This board can determine whether he shall continue to serve under the sentence, be released upon parole subject to re-imprisonment if the conditions of the parole are not complied with, or be absolutely discharged. In the latter case his reform must be so evident and so thorough as to satisfy the board that the welfare of society will not be jeoparded by his release. The same part of the bill abolishes all cruel methods of punishment and substitutes only solitary confinement on short rations. Measures are also provided for the preservation of the health of the prisoners and for the ascertainment and treatment of insanity.

The portion devoted to the employment of the convicts provides for their classification into three divisions; first, those who are most corrigible and susceptible to reformation; second, the apparently incorrigible but skillful and competent as workers; third, the hardened offenders who are likely to interfere with prison discipline. The first class are to be given employment with the object of fitting them for usefulness and honorable self-support when released, whether profits result from their labors or not. The second class are to be employed upon saleable products, with the object, first, of profit to the state, and second, of fitting them for self-support when released. The third class are to be employed solely for the profit of the state.

The bill prohibits the contract system, adopts the state account system, and permits the piece price system to be substituted when the appropriation for the state account system gives out. The number employed at any one industry shall not exceed 10 per cent of the free laborers engaged in the same occupation in the state. Institutions supported wholly or partly by the state are to receive their supplies from the prisons as far as possible. The prisoners are to receive instruction an hour and a half each day except Sundays. Those serving life sentences, and thus debarred from commutation for good behavior, may be paid wages of from 8 to 12 cents a day in the discretion of the prison officials.

This is a good, practical bill. The only important feature lacking is one providing for the distribution of actual profits, if any are earned, among the families of those prisoners who are deprived of the means of support by their incarceration. This would provide a great stimulus to industry, and would overcome the last objection of labor organizations to giving to prisoners the best and most profitable employment possible.

COLLECTOR AND POSTMASTER.

The two appointments of highest interest to New Yorkers since the Cabinet positions were disposed of were made by President Harrison yesterday. Joel B. Erhardt was appointed Collector of the Port, and Senator Cornelius VanCott Postmaster of New York. These appointments appear to suit everybody. Democrats as well as Republicans express pleasure. Both gentlemen are natives and life long residents of the city, where they have built up reputations as honorable business men and politicians which commend them to universal confidence.

Mr. Erhardt is about fifty-one years old, and a graduate of the University of Vermont. He abandoned his law studies in 1861 to enter the army. He served through the war, reaching the rank of Captain. He has since held the offices of United States District Attorney, Police Commissioner and United States Marshal. His last public service was as receiver and President of the New York and Northern road. He was the Republican candidate for Mayor of New York last fall, and received 73,037 votes, while Mayor Hewitt received only 71,979. He was defeated by Hugh J. Grant, who received 114,111.

Mr. VanCott is 50 years old. He began the trade of compositor in the American Tract Society's establishment, but left it to learn carriage making. Activity in politics brought him into prominence, and during Mr. Lincoln's administration he was appointed an inspector of customs. This office he resigned to go into the insurance business. He has for several years been a director and Vice-President of the Ætna Fire Insurance Company. He has been an active fireman, and was for several years a member and President of the Board of Fire Commissioners. He is a trustee of the West Side savings bank, President of the Lincoln Club and a member of the Republican state committee. In 1887 he was elected a State Senator from the eighth district by a plurality of 4,803 over the Democratic candidate and a majority over the whole of 1,661.

THE ED. MURPHY GANG.

They Start a Democratic War in Cohoes—Heads Broken and Boxes Smashed.

[Special dispatch to the New York Tribune.]

COHOES, N. Y., April 5.—This town has been in a ferment all day and the result will probably be a murder or two. The cause is the rivalry between David B. Hill's man "Ed" Murphy, Jr., Chairman of the Democratic State Committee, and the friends of D. Cady Herrick, the Cleveland leader, of Albany, who are fighting for political supremacy in Albany county. As in the West Troy primary election, a few weeks ago, Murphy imported a gang of the most ruffianly men that Rensselaer county can produce, to help carry the day. These men are his most abject servants, and will pick a pocket or smash a man's skull at his bidding.

The row was over the election of Democratic candidates for the ward offices, principally Supervisors. Two years ago John Garside was elected Mayor of Cohoes by the Democrats. He wanted to control the delegates from that city to the County Convention last spring to insure his election to the Democratic National Convention at St. Louis. Mayor Garside was defeated and ex-County Clerk John Larkin, a sworn Cleveland man, chosen. This drew more closely the lines between the Hill and Cleveland Democrats in this city, and the contest between these two factions become so bitter, under the lead of these two Democrats, that Garside, through questionable means, obtained control of the police department and turned out all the old members of the police force and made the force strictly a political machine of his own. He used it to-day in such a manner that rioting and blood-shed are the result.

In two of the wards here the Herrick men carried the day without disturbance; but in the Fourth Ward, after balloting for an hour, it became apparent to the Mayor's men that they were beaten by a large majority, and that their only recourse was to capture the polls and run the election to suit themselves. The police, under orders apparently from the Mayor, broke down the doors of the polling place and smashed the ballot-boxes, scattering the ballots on the floor. This led to a general fight between the inspectors of election, who were Larkin men, and the police, and among the people who were massed on the outside. The police brought a second ballot-box with them and tried to run the Mayor's side of the election. Heads were broken and many men were badly injured.

But the most serious affray was in the First Ward. Here the inspectors were Larkin men, and the Mayor's forces demanded a watcher at the polls. This was granted, but he was compelled to enter the polling place by a rear door. This infuriated the police, who had been sent there by the Mayor to run things, and they demanded admission to the office of O'Day's barn, where the election was taking place. The inspectors denied them admission, claiming that they had no right there. The police battered down the doors and gained admission. In the fight Police Sergeant Barrett was struck over the head with an axe. His skull was fractured, and he is likely to die.

While this row was in progress, one of Larkin's men shoved a pistol through a window and threatened to shoot the first man who came in sight. William O'Brien, a former town officer, was so badly pounded that he had to be carried home. The Mayor's men by force of numbers got possession of the polls and carried things their own way.

To-night Cohoes is in a state of wild excitement. Fights and slugging affrays, almost without number, have taken place, and several men have been carried home with serious injuries. The Sheriff of Albany county has sworn in a posse of men and will keep order, if possible, during the election on Monday, when Murphy and his gang are expected to appear in force.

THE CENTENNIAL FUSS.

How it is Viewed in Another State—Some Ridiculous Features.

[From the Philadelphia Times.]

They are having lots of fun in New York over the proposed centennial commemoration of the inauguration of Washington. The committee having the celebration in charge is carefully selected from the most aristocratic society, and while the common people are to be allowed to look on, only persons of clear descent from revolutionary grandfathers are expected to take part in the official ceremonies.

There is, of course, no rule without an exception, and some of the official personages whom it has been necessary to include, as well as some members of the committee itself, are of rather shady genealogy. Still, the Four Hundred have done the best they could, and they are happy in the good fortune that has sent a President of the United States just at this time who had a distinguished grandfather and great-grandfather, and who is therefore amply qualified to occupy the place of General Washington in the procession. He is to be received, just as Washington was, at Elizabethport, escorted to the city in a barge, and otherwise made an exhibition of. He will not, however, wear the Washington costume.

It is remembered that in Washington's time the President was surrounded with a good deal of aristocratic style, and the committee is determined to show no deterioration from the standard of the original Republican court. It has therefore been compelled, in issuing invitations to the inauguration ball, to draw the line at the Legislature. But the Legislature is expected to pay the bills, and the rural members thus had the committee at a disadvantage. No invitations, no appropriation.

So an emissary of the Four Hundred was sent up to Albany to negotiate. He agreed to invite the Legislature to the ball and to give the members a Grand Stand all to themselves from which to view the procession. This was expected to make peace, but when the Legislators found that the ball tickets were for "one gentleman only" and would not admit their wives and daughters, they were up in arms again.

Negotiations were accordingly renewed, but at this point the members of the committee were obdurate. They might, by a stretch, take in the members themselves, ex officio, but as to the wives and daughters of the Metropolitan Aldermen, the doors that open only to good society must be resolutely closed.

It was hoped that the matter had been finally adjusted on this basis, but it appears that even so purely a formal a concession to the commonalty has broken the heart, as it were, of the Grand Panjandrum himself, and the telegraph brings the appalling news that Mr. Ward McAllister, the special guardian of New York society, has resigned his commission as leader of the ball and washed his hands of the whole affair.

It is believed that the 400 will pull themselves together and bravely maintain their position in spite of the defection of their leader, but the situation is critical. The whole scheme of attempting to reproduce the conditions of a hundred years ago is so absurd that it seems unnecessary to discuss which party to the present quarrel is the most ridiculous. But in any case it furnishes plenty of sport for unsympathetic spectators at a distance.

SANFORD'S RADICAL CURE FOR CATARRH.

Relief Instantaneous, Cure Rapid, Radical and Permanent.

No single disease has entailed more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell, of taste, of sight, of hearing, the human voice, one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and injures the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffling, and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell and taste, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sanford's Radical Cure for Catarrh

consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and IMPROVED INHALER, all in one package; price, $1. Ask for SANFORD'S RADICAL CURE. Sold everywhere.

INTERESTED PEOPLE.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50 cents and $1. We certainly would advise a trial. It may save you from consumption.

The famous Hop Plasters not only cure every soreness but prevents a return. No failure possible.

A LUCKY MAN.

Mr. Lyman Crawford, Druggist, of Springfield, Mass., says: For years I was afflicted with kidney disease in its worst form, and I state, with a perfect recollection of all that was done for me, that Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., gave me permanent relief.

FEMALE BEAUTY.

It is a fortunate thing that all men do not have the same taste in female beauty, for otherwise they would all fall in love with the same woman, which would be awkward. Although the preferences of men for different style of form and feature vary greatly, it is undoubtedly a fact that a face indicative of health is pleasing to all alike. A woman may be without regular features, yet, if healthy, she will be beautiful to some one and pleasing to all. A sallow complexion, a dull eye, a system debilitated by unnatural discharges, in short, all the ills attendant upon the irregularities and "weaknesses" peculiar to the sex, can be banished by the use of Dr. Pierce's Favorite Prescription. Ask your druggist.

★ BRIGHT'S DISEASE. ★

A Ten-Year-Old Child Saved After the Failure of Four Physicians.

My little girl, ten years of age, was taken sick in March, 1888, with scarlet fever. When recovering she took a severe cold, which developed Bright's Disease of the Kidneys. Her ankles, feet and eyes were terribly swollen, she had a burning fever, and all the symptoms of an aggravated case of Bright's Disease. Four of our best physicians attended her, but without success, and

Her Life was Despaired of.

But a mother's love and prayers surmount all difficulties, and I determined to try Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. This was a last resort, and I hoped, although my little daughter's case was a very severe one, that the Favorite Remedy would do for her what it had done for others whose condition had not been, seemingly, as hopeless. How happy I am that I determined upon this course—for an improvement was at once perceptible. The fever left her—her appetite improved—she gained six pounds in a short time, and one by one the well known and dreaded symptoms of the disease left her. Words fail to express my gratitude and I cannot too earnestly recommend he Favorite Remedy. It was

A MARVELOUS RECOVERY

and is due entirely to the Favorite Remedy, which was the only medicine taken after her case was abandoned by the physicians.

Mrs. Laura A. Kempton, West Rutland, Vermont.

The diseases that follow Scarlet Fever, Measles, Diphtheria and various other complaints often leave behind them sequellas of the most obstinate and dangerous character. To expel all traces of such disorders, tone up the various organs, and fill the veins with pure and nutritious blood, use

THIS CITY'S BUSINESS

AS TRANSACTED BY THE ALDERMEN LAST NIGHT.

More About That Proposed New Steam Roller—The First Ward Sewer Matter Again Discussed, and Ordinance Finally Adopted.

A session of the Common Council of this City was held in the City Hall last night. Mayor Newkirk presided.

PETITION.

The residents on Chester-street petitioned for a water main on that street, 1,500 feet distant from Union-avenue, and two hydrants.

On motion of Alderman Wieber, the matter was referred to the Committee on Water Supply to report.

COMMUNICATION.

A communication was read from William Lounsbery, attorney for F. W. Gross, stating that the City sewer which enters below Gross' mill has caused a deposit so the water backs in the mill wheels, interfering with the same. "If the matter is not promptly attended to Gross will be driven to commence suit against the City."

On motion of Alderman Brinnier, it was referred to the Committee on Sewers, with power.

FIREMANIC MATTERS.

Cornell Hose Company called attention to the bad condition of the Abeel-street engine house.

Alderman Thompson moved the matter be referred to the Committee on Repairs and Supplies to report, while Alderman Dederick moved an amendment that it be referred to the Fire Committee to report.

Alderman Wieber said that the company desired the Committee to take into consideration the probable cost of putting on a 20-foot addition, take out partitions between two rooms up and down stairs and repair roof.

The amendment was carried.

A communication was read from Weber Hose Company certifying to the election of officers. It was referred to the Committee on Fire Department.

REFERRED.

Claims against the City were read and referred to the Auditing Committee.

MOTIONS.

On motion of Alderman Coogan the petition for two hydrants on Hurley-avenue was taken from the table and the prayer of the petitioner granted.

On motion of Alderman Dederick a walk was ordered laid across Hasbrouck-avenue, westerly side of Foxhall-avenue.

Alderman Kraft moved that hereafter no bids shall be received by any committee of the Common Council or City officer for work for the City, unless accompanied by a good and sufficient bond in double the amount of the sum asked for. All bids must be in the form prescribed by the Committee. Carried.

Alderman Goodsell moved that as the town of Ulster had expended considerable money upon the road leading into this City known as the "Devil's Lake Road," that the Superintendent of Streets be directed to put in good order that part of the road lying within the City limits. Also that the Committee on Lamps report lamps necessary, not exceeding four, to place upon said road.

Alderman Dederick moved it be referred to the Street Committee to report. Carried.

On motion of Alderman Brinnier the Street Superintendent was directed to place a cross-walk on Clinton-avenue at its junction with Liberty-street.

Alderman Purvis moved a lamp be placed on Abeel-street, near Sweeney's mills. On motion of Alderman Thompson it was referred to the Lamp Committee to report.

On motion of Alderman Kraft the Committee on Lamps was directed to report the advisability of placing a lamp on Albany-avenue, between Tremper-avenue and the Railroad bridge. Carried.

Alderman Dederick moved the Committee on Lamps examine the question of putting two lamps on the road that leads to the Alms House and report. Carried.

Alderman Coutant moved that the Lamp Committee examine O'Reilly-street and place a lamp there. Carried.

Alderman Hamburger moved that the Committee on Water Supply be instructed to place a fire hydrant on Chestnut-street, south of Montrepose-avenue, and report. Carried.

Alderman Brinnier moved that the matter of placing a hydrant on Pine Grove-avenue be referred to the Committee on Water Supply to report. Carried.

Alderman Murray moved that the Street Superintendent be directed to fill up mud holes on Third-avenue. Carried.

Alderman Murray moved that Augustus Van Buren be heard in relation to bills of Officers Sullivan and Cahill for patrolling Union-avenue by order of the Mayor. Carried.

Mr. Van Buren gave a statement of their case, claiming they were entitled to pay for the month of September which had been disallowed.

Alderman Beck moved it be referred to the Corporation Counsel. Alderman Thompson moved it be referred back to the Auditing Committee. Alderman Coutant moved that a warrant be issued for the amount of the bills. The amendment was carried.

Alderman Thompson said a brick building owned by one Mooney, on Abeel-street, near South Rondout ferry, was in a dangerous condition, and moved it be referred to the Board of Health to attend to immediately. Carried.

Alderman Kraft moved that the Superintendent of Streets clean the ditches on the lowland of the dirt deposited in them by surface water. Carried

On motion of Alderman Brinnier tax warrants were extended 30 days.

COMMITTEES' REPORTS.

The Committee on Steam Roller reported that they had been waited upon by agents of Avelling & Porte, of England, and Hansburg Roller Company, of Pennsylvania, and recommended that the agents of said companies be invited to give a competitive trial of their 10-ton rollers in the presence of the Mayor and Common Council Friday afternoon, May 10, at 2 o'clock, and at the meeting of the Common Council Friday evening, May 10, proposals be received for said steam rollers. Adopted.

The Committee on Auditing Accounts reported bills audited; also monthly pay roll $1,080.45. The report was adopted.

Alderman Brinnier, of the Committee on Streets, reported that he had examined the street at the corner of Sycamore and Catherine and recommended that the Street Superintendent repair the same. Also that the City Clerk notify Matthew Larkin, Jr., to have his curb and gutter reset. Adopted.

Further time was granted in relation to the bridge on Hasbrouck-avenue.

Alderman Thompson moved the City Engineer be added to the Street Committee in reference to Hasbrouck-avenue bridge. Carried.

Alderman Dolson said that the Fire Committee had examined No. 4 engine house to ascertain repairs necessary. They found a person occupying four feet of the City lot. "It should be first settled how much the City owns." He moved the matter be referred to the Corporation Counsel and the City Engineer to report. Carried. The Committee also had examined Rescue Hook and Ladder Company building. Found the carpet had not been injured. No damage done by leakage. Report was adopted.

Alerman Wieber, of the Committee on Sewers, reported in regard to the open ditch junction of Albany-avenue and Pearl-street, and recommended that an underground drain be built to intersect the one on the opposite side of the street and ditch be filled up to the level of the roadway, the work to be done under the supervision of Street Superintendent and City Engineer. Adopted.

SEWER ORDINANCE PASSED.

Alderman Wieber, of the Sewer Committee, recommended the adoption of an ordinance to provide for a system of sewerage for the First Ward, according to report of Engineer Childs. The ordinance is to provide for the construction of a main running from Linderman-avenue to Esopus Creek, the outlet at or near the mouth of the tannery brook, lateral sewers to be constructed in the First Ward to be connected with the main sewer, through Green, Crown, Wall and Fair-streets, Clinton and Albany-avenues, Pine-street, Maiden Lane, Pearl, Main, John and North Front-streets, 25 per cent. for main and laterals to be paid by general tax on the City and 75 per cent. be paid by special assessment upon real estate the Assessors shall deem more immediately benefited.

Alderman TenBroeck moved the ordinance be adopted as read.

Alderman Brinnier objected to the ordinance on the grounds "We have no right to empty sewers in the Esopus Creek. No arrangement has been made with the Water Company to furnish water to flush the sewers. The system should be of sufficient capacity to carry off the sewage for a greater number of inhabitants in case it is so desired as the City increases in population."

Alderman Kraft answered at length on the necessity of sewers, claiming that men from abroad who would have invested in real estate here have been forced to go to other places because there was no system of sewerage. That a man named McCoun came to this City to invest in real estate, found there were no sewers, went to Newburgh, purchased a piece of ground and erected 80 buildings on the same valued at from $2,000 to $10,000 each. He spoke of the report of the State Board of Health favoring sewers for Kingston.

Alderman Coutant said he did not know as this City wanted any more tenement houses, but thought sewers would be a benefit to manufacturers. Unless there were sewers he did not see how people would come here and put up manufactories.

The roll was called and the ordinance was adopted. Ayes, TenBroeck, Kraft, Dederick, Dolson, Cordts, Goodsell, Beck, Weiss, Wieber, Thompson, Hamburger, Coogan, Purvis, Coutant, 14; noes, Murray and Brinnier, 2.

Alderman Wieber moved the City Engineer be directed to get the necessary plans and specifications ready, and report the same to the Common Council, in order that bids might be advertised for. Carried.

ADJOURNMENT.

The Common Council adjourned for one week.

SOME TEMPERANCE LITERATURE.

Contributed by the Rondout Women's Christian Temperance Union.

The Women's Christian Temperance Union, of Rondout, contributes the following to THE FREEMAN:

INTOXICATING LIQUORS.

They deprive men of their reason for the time being.

They destroy men of the greatest intellectual strength.

They foster and encourage every species of immorality.

They bar the progress of civilization and religion.

They destroy the peace and happiness of tens of thousands of families.

They reduce many virtuous wives and children to beggary.

They cause many thousands of murders.

They prevent all reformation of characters.

They render abortive the strongest resolutions.

The millions of property expended in them are lost.

They cause the majority of cases of insanity.

They destroy both the body and the soul.

They burden sober people with millions for the support of paupers.

They cause immense expenditures to prevent crime.

They cost sober people immense sums in charity.

They burden the country with enormous taxes.

Moderate drinkers want the temptation removed.

Drunkards want the opportunity removed.

Sober people want the nuisance removed.

Tax-payers want the burden removed.

The prohibition would save thousands now falling.

The sale exposes our families to destruction.

The sale exposes our persons to insult.

The sale upholds the vicious and idle at the expense of the industrious and virtuous.

The sale subjects the sober to great oppression.

WELL ANSWERED.

To the question, "what will prohibition do?" an exchange pertinently replies that it will destroy the political power of the saloon; it will turn millions of dollars now wasted for poor liquor into legitimate channels of trade and increase the business of those who have something valuable to dispose of.

It will also decrease the amount of crime, reduce the number of criminals, lessen the cost of running our jails and penitentiaries by diminishing the number of inmates in them, lessen the cost of litigation, and decrease the expense of prosecuting criminals.

Furthermore, it will keep thousands of otherwise good husbands and fathers from wasting their means and their families' means on that which makes them all miserable.

It will close up nearly all the saloons in the State and be the means of arraying all the law and order element on one side, and make outlaws of those who persist in selling liquor.

It will make liquor selling contrary to law and therefore dishonorable.

It will be one great means of educating the public consciences as to the evil of liquor drinking everywhere.—*Mail and Express.*

GENERAL SHERIDAN'S WAR HORSE.

The Faithful Animal Described in "Personal Memoirs"—Endurance.

General P. H. Sheridan, in his "Personal Memoirs," describes his black horse, Rienzi, made historical from having been ridden in many battles, conspicuously in the ride from Winchester to Cedar Creek, which has been celebrated in the poem by T. Buchanan Read. According to the "Memoirs" the horse was of Morgan stock, and when presented to him by Captain Campbell, of the Second Michigan Cavalry, in 1862, was about three years old. Rienzi is described in the "Memoirs" as follows: "He was jet black, excepting three white feet, 16 hands high, and strongly built, with great powers of endurance. He was so active that he could cover with ease five miles an hour at his natural walking gait. * * * Campbell presented him to me on one of these visits, and from that time until the close of the war I rode him almost continuously in every campaign and battle in which I took part, without once finding him overcome by fatigue, though on many occasions his strength was severely tested by long marches and short rations. I never observed in him any vicious habits; a nervousness and restlessness and switch of the tail when everything about him was in repose being the only indication that he might be untrustworthy. No one but a novice could be deceived by this, however, for the intelligence evinced in every feature, and his thoroughbred appearance were so striking that any person accustomed to horses could not misunderstand such a noble animal. * * * Although he was several times wounded, this horse escaped death in action; and living to a ripe old age, died in 1878, attended to the last with all the care, and surrounded with every comfort due the faithful service he had rendered."

THE "OLD LEATHER MAN'S" COSTUME.

Patches United by Leather Thongs—Mellowed by Time.

In an article telling of the "Leather Man" recently found dead in the town of Mt. Pleasant, Westchester County, the *Highland Democrat* thus describes the costume which gave the deceased his name: "Breeches, jacket and boots were a mosaic of patches taken from old bootlegs. These fragments were united by leather thongs, laced like a shoe-tie. The whole fabric was mellowed by time and stress of weather, and dirt, to a rich russet tint that, despite its uncleanliness, would render it a thing of beauty to an artist. The jacket had huge pouches or pockets on the inside, and the garment must weigh, when these receptables are empty of the miscellaneous assortment of old 'junk' found in them, not less than 30 pounds. The breeches were nearly as heavy, and the boots, fabricated in the same remarkable fashion, had wooden soles at least two inches thick. It is thought that this same suit had served as the dead man's apparel for nearly 30 years. Summers and winters he wore it, and no one ever saw him in any other kind of attire."

FATAL PRAIRIE FIRES.

FARMERS WHO HAVE BEEN MADE HOMELESS AND DESTITUTE.

Thrilling Scenes and Incidents in Dakota—Miles of Blistered and Scorched Territory—Great Loss of Property—Wind 60 Miles an Hour.

By Telegraph to The Freeman.

ST. PAUL, April 6.—The list of losses by the prairie fires in Dakota increase and the descriptions of hair-breadth escapes are thrilling. In Yankton County alone the damage in $150,000. Near Rapid City Professor G. E. Bailey's ranch was destroyed. When a party of neighbors drove through the blinding smoke at the rear of the house an appalling sight met their gaze. Standing in a little hollow beneath the ruins of the house was Eloise Madison, blistered and scorched and burned, without hardly a shred of clothing upon her. The girl must have been in the condition in which she was found for at least a quarter of an hour. Her clothing, save the collar of her dress, part of the stocking on the right foot and the right shoe had been completely burned from her body. Standing unaided and conscious of her terrible condition she greeted the first person to her assistance with the ejaculation: "My God, can't you do something for me." Strong men shuddered and for a minute turned away, but for a moment only, when ready hands did everything that could be done for her. Mrs. G. E. Bailey, in whose employ the young girl was, and William Ashton, the hired man, had a very narrow escape, and suffered painful but not dangerous injuries. Mrs. Bailey says when the fire caught the dwelling house it blazed like tinder and allowed them no alternative but to run for their lives. This they did, Mr. Ashton taking each of the women by the arm and starting with them through the smoke and flames. They had gone but a short distance when Miss Madison fell. The smoke was so thick that when they stopped to look for her she could not be seen, and thinking she had gone in another direction, they resumed their efforts to escape. After a severe struggle they succeeded in getting to the windward side of the fire, and made their way to a neighboring ranch.

At George Hunt's place the family had just seated themselves at the dinner table, when Mrs. Hunt saw sparks flying in the kitchen. Seizing a blanket apiece, the people in the house threw them over their heads and started from the building. By good fortune all succeeded in reaching a place of safety. For 20 feet their path was through a sheet of flame 50 feet high. Many of the other farms on Rapid Valley barely escaped the wild flames which sped across the ground like a flash of lightning. The wind was blowing at the rate of 60 miles an hour. Had the velocity of the wind been less more damage would have resulted. As it was, the fire was confined to a narrow strip of country, enabling those from the City to beat out the flames with sacks. Thousands of dollars worth of property was destroyed within 10 miles of Freeman. Thirty-two families lost their homes, only escaping partly clothed. Machinery, grain, hay and a great amount of stock were burned. The unfortunate farmers are entirely destitute and without food or shelter.

In Douglass County the fire was one of the worst ever known. Many farmers lost everything and are homeless and destitute. The house of William Cline was burned, Mrs. Cline perishing in the flames. She was 70 years old, and was the mother of E. W. Cline, Prosecuting Attorney of Douglas County. Near Oakwood Lake lives Frank Goodfellow. He was away from home when the fire came. Mrs. Goodfellow and three chiidred heroically fought the flames several hours, and then were forced to get down on their knees while the flames passed over them. Mrs. Goodfellow is so badly burned that she will probably die.

In Brule County casualties are being reported daily. Fully 100 families have lost everything, the loss reaching $150,000. Two women were burned to death near Chamberlain. It is reported at the latter place that the fire was started by Indians on the reservation. The Crow Creek Agency had a narrow escape.

FIVE MILLION FEET OF LOGS SEIZED.

They Were Cut From Indian Reservations by Various Lumber Companies.

By Telegraph to The Freeman.

ST. PAUL, April 6.—United States Marshal Campbell returned, yesterday, from Cloquet, where he went Monday, to look up matters connected with the replevin suit brought by the Government against the C. N. Nelson Lumber Company, the Cloquet Lumber Company, Patrick Hynes and Andrew Gowan, for lumber cut on the Indian reservations. Mr. Campbell formally seized in the name of the Government 5,000,000 feet of logs which are thus tied up.

Hog Cholera in West Virginia.

By Telegraph to The Freeman.

WHEELING, W. Va., April 6.—Malignant hog cholera has broken out at West Liberty. Many hogs have died and many more are ill. The farmers have kept the matter secret. Vigorous steps will be taken to stamp out the disease.

THE STOCK AND MONEY MARKET.

Financial Doings on Wall-Street To-Day—The Leading Closing Quotations.

By Telegraph to The Freeman.

NEW-YORK, April 6.—The stock market opened with a moderate volume of business this morning, in which the grangers, Atchison, Reading and Louisville & Nashville were most conspicuous. First prices were strong, the advances over last evening's figures extending to ⅛ per cent. in Omaha. The market became dull and stagnant toward the end of the hour, and at 11 o'clock was dull and steady.

SPECIAL BUSINESS NOTICES.

EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50 cents and $1 per bottle, at VanDeusen Brothers', Rondout, and F. J. R. Clarke's, Kingston.

TO-NIGHT AND TO-MORROW NIGHT,

And each day and night during this week you can get at all druggists Kemp's Balsam for the Throat and Lungs, acknowledged to be the most successful remedy ever sold for the cure of Coughs, Croup, Bronchitis, Whooping Cough, Asthma, and Consumption. Get a bottle to-day and keep it always in the house, so you can check your cold at once. Price 50 cents and $1.00. Sample bottles free.

PILES! PILES! ITCHING PILES.

Symptoms—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cent. Dr. Swayne & Son, Philadelphia.

ARE YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin Shiloh's Vitalizer is a positive cure. Sold by Frederick J. R. Clark.

CURABILITY OF CONSUMPTION.

This has been a vexed question among physicians, opinions, even in the same school, being strangely divergent. Of this, however, the public are convinced: it is a terribly prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality scrofula of the lungs, and is liable to attack any whose blood is tainted. For driving out the scrofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies the bad blood, heals scrofulous ulcers, and, whatever differences of opinion exists as to curing advanced cases of consumption, it remains that many pronounced "incurable" have been by it brought back from the brink of the grave to restored health and vigor.

NO OTHER

As good. This is the statement of Professor Smith, Analytical Chemist: I have analyzed all of the popular blood purifiers and medicines now sold. Many of them I found to be worthless, some dangerous to use. Sulphur Bitters contains nothing poisonous, and I think it is the best blood purifier made.

Will be found an excellent remedy for sick headache, Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

SHILOH'S CATARRH REMEDY—A positive cure for Catarrh, Diphtheria and Canker Mouth. Sold by Frederick J. R. Clark.

"When the spring-time comes," we usually find ourselves drowsy and exhausted, owing to the impure and sluggish state of the blood. To remedy this trouble take Ayer's Sarsaparilla, the most powerful, yet safe and economical blood-purifier in existence.

"THE TABLE ROBS MORE THAN THE THIEF."

Over-indulgence at the table robs many a one of good health, and without health life is not worth living. Little Hop Pills always cure such excesses and regulate the liver. All druggists sell them. Try. Judge.

The body is more susceptible to benefit from Hood's Sarsaparilla now than at any other season. Therefore take it now.

BUCKLEN'S ARNICA SALVE.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by VanDeusen Bros., Rondout, and F. J. R. Clarke, Kingston.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts. and $1. Sold by Frederick J. R. Clark.

ADVICE TO MOTHERS.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind-colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

COMMON AIR.

The breath of life is conveyed to every part of the human lungs by means of a system of fine vessels called the bronchial tubes. When these are clogged up by an accumulation of mucous, so that breathing is very difficult, especially after any exertion, a person has the leading symptoms of Asthma or Phthisic. Besides this the tubes are often reduced to much less than their natural diameter by spasmodic contraction; often nearly suffocating the sufferer. Whether the case is of long standing or not, Dr. David Kennedy's Cherry Balsam is the most efficacious known remedy. It at once loosens the mucous matter, and causes it to be ejected by a free and easy expectoration. The Balsam in such cases should be taken in larger doses than for a common Cough, and no harm is done if some vomiting results. Take particular notice that if the disease is complicated with a dyspeptic state of the stomach Kennedy's Favorite Remedy must be used to correct the digestion. The case must be very severe that will not rapidly improve under this treatment.

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by F. J. R. Clarke, Kingston.

PNEUMONIA, THE MOST DANGEROUS

of all acute attacks, prevented by the use of the great Hoxsie preparations. The greatest remedies in the world, for Lung and Throat Troubles. 25 cts.

You feel like giving up, your back pains you so? Apply a Hop Plaster—infallible!

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. Ely's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, 1st Division New-York Appraiser's Office.

For several years I have been troubled with catarrh. Ely's Cream Balm has proved to be the article desired. I believe it the only cure.—L. B. Coburn, Merchant, Towanda, Pa.

METHODIST CONFERENCE

NOW IN SESSION IN THE ELIZABETH-STREET CHURCH, N. Y.

Committees Appointed and Trustees Elected—Reports of Presiding Elders—Examination of Candidates—Collections—In the Portal.

J. H. Lane, of West Stockbridge, Mass., who is well known in this City, is in New-York attending the M. E. Conference, which is in session in that City. He writes to THE FREEMAN as follows:

YESTERDAY'S PROCEEDINGS.

At the opening of the New-York M. E. Conference, yesterday, committees were appointed on Deaconesses, Conference Chronology and Chaplains of the United States Navy.

The Revs. Messrs. E. S. Osbon, D. D., R. H. Travis and John S. McClain were elected Trustees for the Conference.

The Rev. J. M. King, D. D., introduced a paper, "Protesting against the passage of bill No. 894, now before the Assembly, as diverting the public school funds for sectarian purposes," which by a rising vote, was unanimously ordered forwarded.

The Bishop called for the report of the Poughkeepsie District, which was made by the Rev. S. I. Ferguson in place of Dr. G. S. Hare, deceased.

The Rev. W. A. Dalton, of Pleasant Valley, withdrew from the Conference and returned his ordination papers.

The Rev. F. J. Belcher, P. E., of the Newburgh District reported: "The work is in a prosperous condition. Revivals have prevailed in 42 of the charges. New churches had been built at Downsville and Long Eddy, and repairs made at several other places in the District. The missionary collections were larger than in any previous year."

The Rev. Alfred Coons, P. E., of the Kingston District, presented his report. He said that revivals had prevailed in the District which had resulted in 1,600 conversions. The benevolent collections, the Presiding Elder stated, were in advance of last year. He favorably alluded to the new Parsonage of St. James Church, Kingston.

The Rev. E. L. Allen was reported as transferred, and the Rev. L. S. Brown as taking a superannuated relation.

The Rev. M. C. Crawford offered a resolution touching the action taken by the Board of Trustees of the Eighteenth-Street M. E. Church, who for two years past have refused to pay the interest of what is known as the "Depeyster Legacy," to the Conference on the ground they have no right so to do. The resolution was adopted.

Professor W. N. Rice, Ph. D., of Wesleyan University, and Professor A. H. Flack, of the Claverack College, addressed the Conference.

The examination of candidates for Orders was taken up, and the following advanced: T. H. W. Baragwaneth, D. W. B. Thompson, W. F. Albrecht, J. W. Burkins, G. W. Thompson, R. Kikelhan, V. D. Mattice, T. R. Sweetmen, S. H. Scott, A. L. Shear, W. R. Evans, C. H. Snedeker, W. F. Anderson, O. H. Harpendon, F. C. Summers, A. M. Griffin, W. A. Fuller, Elmer E. Count, D. W. Howell, Ambrose Quick, H. M. Mace and G. F. Starks.

This large class was elected to Deacons' or Elders' Orders.

According to a report made the following collections for missions were taken:

New-York District	$30,853
Poughkeepsie District	3,205
Newburgh District	6,800
Kingston District	3,918

This is an increase of $1,598 over the last year's collections.

TO-DAY'S DOINGS.

A dispatch from New-York to THE FREEMAN to-day stated: The Methodist Conference to-day adopted a resolution condemning as injurious and sinful the practice of raising money in churches by fairs, festivals, suppers and pleasure parties. The total benevolent contributions and special collections were reported at $87,890, a decrease of $11,450, chiefly in the special collections.

OTHER RELIGIOUS TIDINGS.

There are now 2,154,237 communicants in the M. E. Church.

The Pastor of the Episcopal Church at Red Hook is said to be six feet, four inches in height.

It is said there are 45 ministers in the New-York Conference whose average salaries are $500 per year.

The Classis of Ulster will meet in the Reformed Church at Plattekill on Tuesday forenoon, April 9.

The Rev. J. Creveling, of Ellenville, has accepted a call to St. John's Episcopal Church, Cornwall.

CHURCH SERVICES TO-MORROW.

The Rev. W. A. H. Pringle will preach morning and evening in the A. M. E. Zion Church.

The Rev. S. D. Noyes will preach morning and evening in the Fair-Street Reformed Church.

VISITORS TO THE ULSTER CO. JAIL.

One Young Woman who Wanted to See and Know All.

There are many visitors to the Ulster County Jail in Kingston. The most of the visits are made to satisfy curiosity. Country people who come to Kingston like to visit the jail as one of the sights of the place. Now and then a party of women ask the Jailer to allow them to take a look inside. They are usually in a nervous twitter during the whole time they are in the jail and when they go out they invariably exclaim: "My goodness! I couldn't be hired to go in there again." One day a young woman went to the Court House and told the Sheriff that she wished to see the jail before she returned home so she could tell the folks all about it. Carman, the Jailer, was sent for and he escorted her inside. He supposed, like most women, who desire to visit the jail, she would be satisfied to go in the hall. That was not sufficient, however. She wanted to see the cells, and that woman wasn't satisfied until she had been shown every cell in the jail on both floors. "I never saw such an inquisitive woman," said the good-natured jailer. "She asked me a hundred questions. Then after she had seen all the cells, she wanted to know where Willet was hung, so I pointed that place out. I had to explain everything about the execution, and at last just as we were about to leave, she looked in my face and said: 'Is the gallows he was hung on, here?' I said, 'no.' 'Well, can't I see Willett's cat?' I said, 'no, I didn't know where the cat was.' As we went out she said 'O! my, I didn't see the dungeon.' Just then I had some business in the Sheriff's office and she left sighing because she hadn't seen it all."

BALL PLAYERS ON THE HOME BASE.

Return of Spaulding's Tourists—Stranger Who Knew the Curves.

A dispatch from New-York to THE FREEMAN to-day stated: The base ball teams have arrived. The men touched *terra firma* at the foot of Twenty-Second-street, North River, at 8 o'clock this morning. The teams came by the steamship Adriatic which was sighted off Fire Island at 1:50 o'clock this morning. The steamer Laura M. Starin, with nearly 200 persons on board, met the Adriatic at Quarantine at 7 o'clock and took the party on board in the midst of tooting of tug boats, dipping of flags and cheers from either shore. The party were driven to the Fifth-Avenue Hotel. During the entire trip not one of the party had suffered from a day's illness and they had travelled nearly 32,000 miles. The All America team is seven games ahead of the Chicagos.

HE PUZZLED THEM.

A dispatch to THE FREEMAN from Baltimore, to-day, stated: Yesterday a big six-footer strolled up to the ball grounds where members of the Baltimore Club were at play. He put on a suit and went in to pitch. The ball players laughed at first, but soon found they could not "hit the stranger." He placed the ball in every conceivable position, and his curves and in and out shoots were remarkable. When he picked up the bat he made the ball and the centre fence come together. His name is George Goetz, and he was born in Green Castle, Pa. Manager Barnie will give him a trial.

MEMORY OF CAPTAIN SCHOONMAKER.

Impressive Memorial Services Held in St. Peter's Church, Albany.

Memorial services held in St. Peter's Church, Albany, on Thursday, in memory of the late Captain C. M. Schoonmaker were largely attended and impressive. Dr. Battershall assisted by the Rev. J. Temple conducted the services. The music selected by Mrs. Schoonmaker, included the chant, "Lord, Let Me Know My End;" the "De Profundis," and the hymn "Thy Will be Done." The Rev. FOR THE CARE OF INSANE.

MEETING LOCAL BRANCH STATE CHARITIES AID ASSOCIATION.

Views Expressed by Those Present in Relation to the Care of Patients—Reading Matter for the Poor House—Reports Made, Etc.

A meeting of the Local Branch of the State Charities Aid Association was held in the Court House, Kingston, yesterday afternoon. R. Bernard presided.

Miss Shufeldt, of the Committee on Out-of-Door Relief, stated that no special action had been taken by that Committee.

J. V. Henry Nott, Chairman of the General Committee on Asylum and Poor House, reported that he had made a recent visit to the Ulster County Poor House and Insane Asylum. Silas Saxton was absent, but he was shown over the premises by an attendant. He found everything apparently in good condition. Mr. Nott reported as to his action and address before the Legislative Committee in opposition to Ulster County keeping its own insane, and in favor of the State bill. He said that since his visit to Willard a year ago he had made the subject of the care of insane a study, and though he wished to cast no reflection upon the authorities at the Poor House he had become more convinced than ever that the State should care for its own insane where they could have expert medical treatment and necessarily receive better care than in a County Insane Asylum. "It is a terrible disease, none more terrible, and the best medical care should be given them. Country doctors cannot understand the treatment of insane persons as well as those who have made a life study of the subject."

Louis Bevier called attention to the fact that since 1869, out of 90 patients only three had been discharged by Willard Insane Asylum, whereas, since the County had taken care of its own insane 12 had been practically cured, which spoke volumes in favor of treatment of insane in a home asylum.

Mr. Nott—"They were nearly cured at the State Asylum before they were taken to New-Paltz. The County is merely receiving the benefit of the expert medical treatment at Willard."

Mr. Bevier: "If they were so nearly cured at Willard why were they not discharged? The fact is they were not only not discharged, but it was with the utmost difficulty that the County could get possession of them."

F. A. Westbrook suggested that though everything was not perhaps as perfect as it might be at the County Asylum many improvements would be made, and when the question which should have the care of the insane, County or State, was finally settled, the Association might do much good in supervising, inspecting, etc.

F. J. R. Clarke said the county care of insane in the West where it had been favored was as yet a mere experiment. Affairs there are totally different than in the East. "The whole sentiment of the country seems inclined toward State care, not alone individuals, but the Metropolitan press advocates it. State care is favorable to economy."

Mr. Bevier called attention to the fact that the State bill advocated supervision of smaller numbers, which necessarily would increase the expense, and that specialists claimed that patients would have better care in smaller institutions. He spoke of the crowded condition at Willard, and that as for economy an appropriation of half a million was asked for new buildings.

Mr. Nott spoke of the lack of reading matter at the County Asylum, and the fact that insane patients there had no employment. This was different at Willard, where a systematic course was carried out to benefit their minds and aid to improve their general health.

Mr. Bevier said a recommendation to furnish reading matter for the County Poor House had been made a year ago. The response had been slack.

Mr. Bernard said that Sunday Schools might aid in this matter by turning over some of their old books to the Poor House. He suggested that the matter be put in charge of William Smith, County Secretary of Sunday Schools.

Mr. Clark reported from the Committee appointed to visit the City Alms House: "I visited the Alms House of this City without notification the second week in March. It was my first visit. I was gratified at the appearance of things there. The buildings seem to be clean, and the rooms had been whitewashed from one end to the other. So far as I could tell from a single visit it seemed to be efficiently managed by the Superintendent. There are some things which might be remedied. The sitting room for males is not large enough. The men assemble there in the evening and the room is oftentimes packed with people. The most of them smoke and the room not only becomes thick with tobacco smoke, but it permeates the sleeping rooms and fills the upper floors. This can be remedied by providing a room on the third floor for a sitting room for men. The rooms set aside for persons who are ill are not properly located. This is the fault of the building, and not of the Superintendent."

The Association adjourned to meet the first Friday in May.

SKETCH OF THE LATE COE F. YOUNG.

Left Home at the Age of Twelve to Seek His Fortune.

[From the Port Jervis Gazette.]

The late Coe F. Young left his home in Sussex County, N. J., at the age of 12 years, barefooted and with no clothes but those he had on his back, to seek his fortune. He tramped into Pike County, and from there to Port Jervis, N. Y., where he struck the towpath of the Delaware & Hudson Canal, which had been recently completed between Honesdale and the Hudson River. He started up the canal, seeking work. He had walked several miles, when he was taken on board a canal boat bound for Honesdale. On the boat was a Scotch emigrant and his family, one member of which was a boy of about the same age as the little barefoot tramp. Between the two boys a warm friendship had grown up by the time the boat reached Honesdale. The emigrant family was bound for the town of Carbondale, which had been called into existence by the coal mines the Canal Company had opened there. The Scotchman was a skilled mechanic and was to go to work in the machine shops at Carbondale. The boy Young remained in Honesdale, where he obtained work on the canal. In a few years he owned a boat of his own, and had attracted the attention of Russell F. Lord, General Superintendent of the Canal, who subsequently married Miss Scott, the sister of the present mistress of the White House, Mrs. Harrison. Young made money on the canal, and was finally placed at the head of the freight department of the Canal Company. His advancement was rapid, and on the retirement of Superintendent Lord he was made General Superintendent.

The Scotch boy, whose acquaintance Young had made on the canal boat, became a mule driver in the mines at Carbondale, but was subsequently advanced owing to his remarkable intelligence and ability, until he became President of the Company and one of the railroad magnates of the country. His name was Thomas Dickson. Soon after he became President of the Company Coe Young was made General Manager and Vice President. It was through the sagacity and efforts of those two that the Canal Company obtained control of the gigantic railroad system of Central and Northern New-York, which it now owns. Thomas Dickson died a few years ago. Vice President Young declined the office thus made vacant and subsequently retired from the management of the Company, his eldest son being appointed to his place. Mr. Young died one of the wealthiest men in Northern Pennsylvania. He married, while in charge of the Canal Company's freight department, the sister of Thomas Cornell, millionaire Hudson River steamboat owner. A daughter of Mr. Young married a son of Thomas Dickson.

SALE OF "ALBANY JOURNAL" STOCK.

Members of Editorial Staff Who Were Kindly Remembered.

A dispatch from Albany to THE FREEMAN to-day stated: The *Albany Journal* to-day makes official announcement of the sale of the control of a majority of its stock by William J. Arkell to William Barnes, Jr., of this City. The transfer took place to-day. The *Journal* was bought just five years ago by Mr. Arkell at the rate of $140,000 for all of its stock. The selling price, it is understood, is at the rate of $175,000, for the entire capital. Mr. Arkell says that he makes the sale because the paper falls in the hands of a trustworthy Republican, a grandson of Thurlow Weed, the first editor and real founder of the paper, but principally because the growth of the business of *Judge* and the recent purchase of *Frank Leslie's Weekly* make it imperative that he should devote his entire personal attention to the care of these large properties. John A. Sleicher, the editor-in-chief of the *Journal*, will remain with the *Journal* during the coming week and then will be identified with Mr. Arkell in the management of *Frank Leslie*. Before leaving the *Journal* office to-day Mr. Arkell called together all the members of the editorial staff and heads of the departments on the paper and presented to each one a handsome check as a parting token of esteem. Those who had been with him during the entire five years of his management received the largest amounts and all who had been in his service for a year were generously remembered.

Dainty Easter Songs.

[From the Albany Argus.]

There have just been issued three beautiful little Easter booklets, "Dawn; The Easter Gift;" "Easter Song, [Robin's and Mine];" and "Easter Morn [Mary Magdalene]" by Mary Westbrook. The author, although a Kingston lady, is well known in this City. She is a sister of the late Judge Westbrook, and that she possesses grace and delicacy as a writer has been proven by other little books similar to the above, issued in previous years. These poems breathe a reverent spirit, and will appeal to all who have poetic sensibilities.

Rhinebeck's Wail.

[From the Rhinebeck Gazette.]

The stone crusher has been a better investment for Rhinebeck than the Town Hall, which cost $20,000 at the outset and hardly pays for repairs. About seven crushers might have been bought for what was sunk in the Hall, and the cost of two with the balance of the $20,000 wisely put into road work, would have been of incalculable benefit to the town. That is the way voters miss it by not attending to public affairs. Only 366 persons voted on the question, and some 600 didn't vote at all.

An Old Lady's Logic.

[From the Gilboa Monitor.]

One night an old lady from the country slept in the house of a friend. Her bed was a hard mattress. Next morning she was asked how she slept. "Not very well, for my old bones are sore with that hard bed of yours." "But all the great physicians say it is healthier to sleep on beds as hard as a board." "Oh, then I suppose that's what you town folks call 'Board of Health.'"

Frederick T. Roberts, M. D., Physician to and Professor of Clinical Medicine at University College Hospital, London, Eng., says: "Bright's Disease has no symptoms of its own, and may long exist without the knowledge of the patient or the practitioner, as no pain will be felt in the kidneys or that vicinity." This accounts for many people dying with Bright's Disease, or advanced kidney malady. The disease is not suspected until it reaches a fatal period. If Warner's Safe Cure is used at the proper time, the fatality from that terrible disease would be greatly decreased. Dr. Thompson also says: "More adults are carried off in this country by chronic kidney disease than by any other one malady except consumption."
